Athens, GA -- Caterpillar will hold information sessions at the Walton County Campus of Athens Technical College on Thursday, April 17, from 10 a.m. until 4 p.m.

Information session participants will have an opportunity to meet Caterpillar employees who work in quality, fabrications, and the assembly department. Representatives from Athens Technical College will be available to discuss the various programs of study offered by the college that bridge to a career at Caterpillar.

In addition, Caterpillar representatives will provide an overview of the company's hiring process and assist individuals in creating an online account needed to apply for a job with the company. Participants are welcomed to bring their resumes to receive feedback from the Caterpillar representatives; however, no interview or job offers will be made during the information session.

Individuals must register online to attend the information session. The registration link is <http://www.athenstech.edu/jobfairannounce/>.
