INTRODUCTORY SECTION

Post Office Box 1249 • Monroe, Georgia 30655 Telephone 770-267-7536 • Fax 770-267-2319 Greg Thompson, Mayor L. Wayne Adcock, Vice Mayor

May 14, 2015

To the Honorable Mayor, Members of the City Council, and Citizens of the City of Monroe, Georgia:

The Comprehensive Annual Financial Report (CAFR) of the City of Monroe, Georgia for the fiscal year ended December 31, 2014 is hereby submitted as mandated by Official Code of Georgia §36-81-7. The financial statements were prepared in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

City Management assumes full responsibility for the accuracy, completeness and reliability of the presented data. To provide a reasonable basis for making these representations, management of the City of Monroe has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Monroe's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Monroe's framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Mauldin & Jenkins, LLC, a firm of certified public accountants, issued an unmodified opinion on the City of Monroe's financial statements for the year ended December 31, 2014. The independent auditor's report is located at the front of the financial section of this report.

If the threshold is met, the City of Monroe is required as part of the independent audit of the financial statements, to undergo a federally mandated "Single Audit" designed to meet the needs of federal grantor agencies. Information related to the single audit if applicable, including a schedule of expenditures of federal awards, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings are included in a separately issued single audit report. For fiscal year 2014, a Single Audit was required and a report issued.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Monroe's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Monroe incorporated in 1821, is located in Northeast Georgia, approximately 40 miles east of Atlanta. Monroe is the county seat of Walton County. The City encompasses approximately 15 square miles and serves an estimated population of 13,466. The City of Monroe is empowered to levy a property tax on both real and personal property located within its boundaries.

The City operates under a Mayor/Council form of government. Policy-making and legislative authority are vested in a governing council consisting of the mayor and eight other members. The Mayor is elected at large, two Council Members are elected from super districts and six Council Members are elected by districts. Council members and the Mayor serve four-year staggered terms, with an election held every two years. City elections are conducted by the Walton County Board of Elections.

The City Administrator, who is appointed by the Mayor and Council, is responsible for carrying out the policies and ordinances of the Council and for overseeing the day-to-day operations of the City of Monroe.

The City of Monroe provides a full range of municipal services including police and fire protection, maintenance of streets, solid waste, building and zoning, code enforcement and library facilities. In addition to the usual government services, the City also provides a full range of utility services including electric, gas, water, wastewater, stormwater, cable, internet and telephone. The city owns and operates the Monroe/Walton County Airport as well as the Georgia Utility Training Academy whereby classes are conducted to train municipal and private sector employees in Electric, Water, Sewer, and Gas utilities.

A goal of the Mayor and City Council is to maintain the high quality of citizen services while keeping the property tax millage rates at some of the lowest among surrounding areas.

Also included as part of the City's reporting are the City of Monroe Downtown Development Authority (DDA) and the Monroe Area Convention and Visitors Bureau Authority (CVB). While both are legally separate entities, they are included as a component unit in the City of Monroe's financial statements.

The annual budget serves as the foundation for the City of Monroe's financial planning and control. All departments are required to submit budget requests to the City Administrator who compiles the proposed operating and capital budgets. The City Administrator presents a proposed budget to the Council during their annual retreat work session. The final budget is adopted in accordance with state law. Budget to actual comparisons are provided in this report for each individual governmental fund for which an annual budget has been adopted.

Local Economy

While the north Georgia economy has felt the same economic downturn as the rest of the nation, the City of Monroe continues to maintain a stable financial environment. Although residential development has been slow, some commercial development continues. The majority of the City's commercial development lies along the Highway US 78/GA 138 corridor.

Among the top ten employers in the City, four are governments accounting for around 38% of the number of jobs in the top ten employers and 18% of all jobs. Two of those government employers, Walton County Board of Commissioners and Walton County Board of Education, are also two of the City's top ten electric, water, gas and sewer customers.

Economic development is one of the City's main priorities. Local Option Sales Tax (LOST) and Special Purpose Local Option Sale Tax (SPLOST) revenues have steadily increased over the last year but have not fully recovered to levels prior to the renegotiation of distribution that occurred in 2012.

Long-term Financial Planning

The City is currently in the final stages of a Transportation Enhancement (TE) program area located in the southern portion of the Downtown Development District. This Federally Funded project will improve both sides of Broad Street with sidewalk, retaining walls, pavers, landscaping and lighting from Alcovy Street through the Mears Street intersection. This project is on schedule to be completed by June 2015.

Another transportation project that is now in the Right of Way Phase is the Livable Centers Initiative (LCI) project which will extend along North Broad Street from West Marable Street to Mayfield Drive. In addition to constructing new or expanded sidewalks along both sides of the corridor, this project will include planting trees and shrubs, raised curbs, a center median, define pedestrian crossings, pedestrian scale lighting and ADA-accessible curb ramps. Concurrent with this work, storm water sewer upgrades will be completed with project funds. This is also a Federally Funded program with a projected total cost of over \$2 million dollars.

Both projects are a continuation of a previously funded TE project and will complement on-going efforts within the Broad Street Corridor providing connectivity between neighborhood and commercial uses along the Broad Street Corridor and Historic Downtown.

In 2013, the City was awarded Community Development Block Grant Funds (CDBG FY13) to rehab sewer lines serving a low income area in the eastern portion of the City. Construction on that project got underway in January 2015 and is on track to finish by fall of 2015.

Capital projects are generally financed using available grants and the 2013 Series SPLOST fund. Capital Projects in the Enterprise Fund are paid from an Expansion and Repair fund and the Utility Municipal Competitive Trust fund.

Relevant Financial Policies

The purpose of the City of Monroe's financial management policy is to insure that the City conducts is investment, cash and debt management activities in a responsible manner in full compliance with Federal and State Law. The City is committed to providing adequate cash flows to meet all current and future obligations. Adherence to this policy has allowed the City to maintain financial stability, all cash funds are properly collateralized and no short-term financing has been needed to meet operations.

Additionally, it is the City's policy to maintain budgetary controls to ensure compliance with legal requirements of the State of Georgia. The annual appropriation resolution approved by the Mayor and Council is adopted for all fund types with the legal level of control at the department level. During the year the budget was amended by Council; further detail on these amendments can be found in the MD&A.

Major Initiatives

The City of Monroe continues to work closely with Georgia DOT and Walton County to implement the area's transportation initiatives. The Highway US 78/GA 138 area's growth has seen the need to address traffic in this area. This is one example of the partnership to improve our local transportation network. Another example is the partnership between Monroe and Walton County to complete a truck by-pass around the historic downtown area. The Preliminary Field Plans have been submitted to Georgia DOT for approval and we expect a review meeting scheduled in the near future so this much needed connector can proceed.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Monroe for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2013. This was the 12th consecutive year that the City has received this award. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual report, whose contents conform to program standards. The CAFR must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current CAFR continues to meet the Certificate of Achievement Program requirements, and we are submitting it to the GFOA to determine its eligibility for another award.

In addition, the City received for the 10th year the GFOA Award for Outstanding Achievement in Popular Annual Financial Reporting for its Popular Annual Financial Report (PAFR) for the fiscal year ended December 31, 2013. In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, the City must publish a PAFR whose contents conform to program standards of creativity, presentation, understandability, and reader appeal. We believe our current report continues to conform to the Popular Annual Financial Reporting requirements, and we are submitting it to GFOA to determine its eligibility for another certificate. This award is valid for a period of one year only.

Last but not least, the City submitted to GFOA its annual budget for the third consecutive year for the fiscal year beginning January 1, 2015. Last year was the 2nd consecutive year the City has received this prestigious award for Distinguished Budget Presentation for fiscal year beginning January 1, 2014. In order to receive this award, the City must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device. This award is valid for a period of one year only. We believe our budget continues to meet the program requirements.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Finance Department. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor and the City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Monroe's finances.

Respectfully submitted,

W. Matthew Chancey

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of City Council City of Monroe, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the **City of Monroe**, **Georgia** ("the **City"**) as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Monroe, Georgia as of December 31, 2014, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Funding Progress – Retirement Plan, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Monroe, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of special purpose local option sales tax proceeds is presented for purposes of additional analysis as required by the Official Code of Georgia 48-8-121, and is also not a required part of the basic financial statements. The introductory and statistical sections are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

Other Information (continued)

The combining and individual nonmajor fund financial statements and schedules as well as the schedule of expenditures of special purpose local option sales tax proceeds (the "supplementary information") are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 14, 2015 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Mauldin & Jenlins, LLC

Atlanta, Georgia May 14, 2015

Management's Discussion and Analysis For the Fiscal Year Ended December 31, 2014

As management of the City of Monroe, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City of Monroe for the fiscal year ended December 31, 2014. We encourage readers to consider the information presented here in conjunction with the letter of transmittal at the front of this report and the City's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City of Monroe exceeded its liabilities and deferred inflows
 of resources at the close of the fiscal year by \$87,312,044 (reported as "net position"). Of this amount,
 \$4,266,228 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and
 creditors.
- Total net position increased by \$5,432,486 during FY 2014 resulting from governmental and business-type activities.
- As of the close of the fiscal year, the City of Monroe's governmental funds reported combined fund balances of \$4,860,842, an increase of \$505,629 in comparison with the prior year. Approximately 54% of this amount (\$2,607,515) is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, unrestricted fund balance (the total of the committed, assigned and unassigned components of fund balance) for the general fund was \$2,612,724, or approximately 30% of total general fund expenditures.
- At the close of the fiscal year, assets and deferred outflows of resources in the City of Monroe's Utilities Fund exceeded its liabilities by \$65,390,049. Of this \$1,270,707 (unrestricted net position) is available to meet the Utilities' on-going obligations to its customers and creditors.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City of Monroe's net position changed during the fiscal year ended December 31, 2014. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, judicial, public safety, public works, health and welfare, culture and recreation, and housing and development. The business-type activities of the City include utilities, solid waste and training center.

The government-wide financial statements include not only the City of Monroe itself (known as the primary government), but also a legally separate Downtown Development Authority and Convention & Visitors Bureau for which the City of Monroe exercises control over these component units by appointing its members. Financial information for these component units is reported separately from the financial information presented for the primary government.

The government-wide financial statements can be found on pages 14-16 of this report.

Fund financial statements. The fund financial statements provide a more detailed look at the City's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Monroe, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Monroe maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered a major fund. Data from the other six governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements on pages 51-52 of this report.

The City adopts an annual appropriated budget for its General, Special Revenue and Debt Service Funds. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget and can be found on page 20 of this report. Budgetary comparisons for Special Revenue and Debt Service Funds can be found on pages 55-57 of this report.

Proprietary funds. The City of Monroe maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its utility, solid waste and training center operations. The Utility and Solid Waste funds are considered major and the GUTA (training center operations) fund is nonmajor. They are the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities.

The City's proprietary fund financial statements are presented on pages 21-23.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24-49 of this report.

Other supplementary information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Monroe's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 50 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial condition. In the case of the City of Monroe, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$87,312,044 at the close of the most recent fiscal year.

By far the largest portion of the City's net position, \$65,431,014 (74.9%) reflects its investment in capital assets such as land, buildings, equipment and infrastructure (roads, bridges, sidewalks and utility service lines) less any related outstanding debt that was used to acquire those assets. The City uses these capital assets to provide a variety of services to its citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Total net position	\$	20,268,684	\$	18,978,514	\$	67,043,360	\$	62,901,044	\$	87,312,044	\$	81,879,558		

An additional portion of the City's net position (20.17%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$4,266,228 is unrestricted and may be used to meet the government's ongoing obligations to citizens and creditors.

Although the net position in our business-type activities represents 77% of total net position, the City generally can only use these resources to finance the continuing operations of the business-type activities.

At the end of the current fiscal year, the City is able to report positive balances in all reported categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The overall net position of the City increased 5,432,486 from the prior fiscal year. The reasons for this overall increase are discussed in the following sections for governmental activities and business-type activities.

Governmental activities. Governmental activities increased the City of Monroe's net position by \$1,290,170. Key elements of this increase are as follows:

- Capital grants increased Revenue due to a major transportation project (TE S. Broad St).
- An increase in transfers resulted from the restructuring of utility rates and the extra revenue generated.

The following graphs show the breakdown by percentage of governmental revenues and expenses.

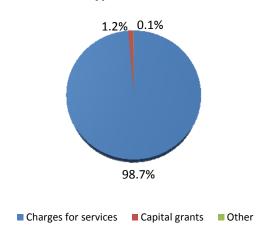

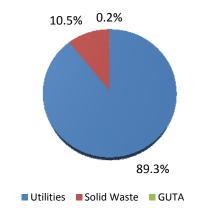

Business-type Activities. Business-type activities increased the City of Monroe's net position by \$4,142,316. The Utilities Fund, largest of the City's business-type activities, accounted for 89.3% of the operating expenses and approximately 89% of the operating revenues among business-type activities. Key elements are as follows:

- Increase in solid waste rates to keep up with increasing disposal rates.
- Restructuring of utility rates to keep up with increased cost of sales.
- Increase in revenue due to the increase in telecommunication customer base.

Business-type Revenues FY 2014

Business-type Expenses FY 2014

FINANCIAL ANALYSIS OF GOVERNMENTAL FUNDS

As noted earlier, the City of Monroe uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City of Monroe's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the Mayor and City Council.

At December 31, 2014, the City's governmental funds reported combined fund balances of \$4,860,842, an increase of \$505,629 (11.61%) in comparison with the prior year. Approximately 54% of this amount (\$2,607,515) constitutes unassigned fund balance, which is available for spending at the City's discretion. The remainder of fund balance is nonspendable, restricted, committed, or assigned to indicate that it is 1) not in spendable form (\$93,464), 2) restricted for particular purposes (\$2,154,654), or 3) assigned for particular purposes (\$5,209).

The General Fund is the chief operating fund of the City of Monroe. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$2,607,515, of the total fund balance of \$2,905,493. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 30% of total General Fund expenditures, while total fund balance represents 33% of total General Fund expenditures.

A portion of fund balance in the General Fund is also restricted for the payment of debt service and for capital projects. This amount at year end was \$199,305 or 7%. The amount of nonspendable fund balance for the General Fund is made up of prepaid expenditures of \$93,464. This 3% of the General Fund's total fund balance.

Fund balance of the City of Monroe's General Fund increased by \$402,272 during the current fiscal year. A key factor in this increase is the reduction of health insurance costs due to a plan design change and additional tax revenue from the new Title Ad Valorem Tax (TAVT) in 2014.

Total fund balance for nonmajor special revenue funds at year-end was \$58,317. This total had a net increase of \$23,356. Included above are the Forfeited Drug Fund and the Hotel/Motel Tax Fund. In the Forfeited Drug Fund the increase was primarily due to an increase in revenue from cases forfeited through the court system with funds restricted for law enforcement purposes from prior years. The Hotel/Motel Tax Fund showed a slight increase. This fund accounts for local room taxes collected with the fund balance restricted for tourism in the City.

The debt service fund has a total fund balance of \$116, all of which is restricted for the payment of debt service. Fund Balance was unchanged from 2014. Principal payments made during the year were \$585,000 and interest expenditures \$202,650.

Proprietary Funds. The proprietary funds share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status. This provides a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

Unrestricted net position of the Utilities Fund at the end of the year amounted to \$1,270,707, the Solid Waste Fund amounted to \$632,560, and those for GUTA totaled (\$19,382). The total increase in net position for these funds was \$4,142,316.

For the year, the total net position of the Utilities Fund increased by \$3,770,353, the Solid Waste Fund increased by \$389,163 and the GUTA fund total net position decreased by \$17,200. Financial analysis in regards to these funds can be found in the business-type activities section.

GENERAL FUND BUDGETARY HIGHLIGHTS

The City of Monroe's General Fund budget is prepared according to Georgia Law and was amended by Council during the fiscal year. Primary differences between the original budget and the final amended budget for the General Fund are summarized as follows:

Revenue:

- Total budgeted revenues increased from \$7,697,181 to \$7,976,191.
- Actual revenues were \$57,358 more than budgeted.
- Taxes made up the majority of the excess due to TAVT and LOST revenues coming in higher than anticipated.

Expenditures:

- Total budgeted expenditures increased from \$8,891,194 to \$9,170,204.
- Total expenditures were \$465,636 less than budgeted.
- Executive, Law, Police, Planning & Zoning, and Economic Development were amended to reflect the variation in budget to actual.

A comparison on General Fund actual expenditures to budget can be found on page 20.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. The City of Monroe's investment in capital assets for its governmental and business-type activities as of December 31, 2014, amounts to \$90,416,236 (net of accumulated depreciation). This investment in capital assets includes land, infrastructure, buildings and improvements, equipment, furniture & vehicles, and construction in progress.

Major capital asset events during the current fiscal year included the following:

Governmental type activities:

- Purchase of almost \$658 thousand in machinery, equipment and vehicles.
- \$265 thousand in street and sidewalk infrastructure added.
- Construction in progress as of the end of the current fiscal year totaling approximately \$674 thousand.
- \$220 thousand in equipment, furniture and vehicles sold as surplus or transferred to another fund.

Business-type activities:

- Purchase of \$288 thousand in specialized service installation equipment and vehicles.
- Construction in progress projects of \$5.5 million in utility infrastructure & improvements completed.
- Construction in progress as of the end of the current fiscal year totaling \$4.8 million for electric, gas, sewer, water and cable upgrades and projects.
- \$58 thousand in equipment, furniture and vehicles sold as surplus.

Additional information on the capital assets can be found in the Notes to Financial Statements on pages 38-39 of this report.

Long-term debt. As of December 31, 2014, the City of Monroe's total long-term debt outstanding is \$21,075,000. Of this amount, \$3,795,000 comprises debt backed by the full faith and credit of the government. The remainder of City debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

CITY OF MONROE, GEORGIA Outstanding Debt General Obligation and Revenue Bonds Fiscal Years 2014 and 2013

	 Goverr Acti		Busine Acti	ess-ty vities	•	To Primary G	otal over	nment
	2014	 2013	2014		2013	2014		2013
General obligation bonds Revenue bonds	\$ 3,795,000	\$ 4,380,000	\$ - 17,280,000	\$	- 18,970,900	\$ 3,795,000 17,280,000	\$	4,380,000 18,970,900
Total	\$ 3,795,000	\$ 4,380,000	\$ 17,280,000	\$	18,970,900	\$ 21,075,000	\$	23,350,900

The City of Monroe's total debt decreased a net of \$2,275,900 during the current fiscal year. The City did not issue any new debt during the fiscal year.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10% of its total assessed valuation. The current debt limitation for the City of Monroe is \$35 million, which is in excess of the total bonded general obligation debt outstanding of \$3.795 million.

The City of Monroe's outstanding governmental activity debt or general obligation (GO) debt enjoys a favorable rating of A+ from Standard & Poor's Rating Service. The City's outstanding business-type activity debt or utility revenue bond debt is rated A- by Standard & Poor's Rating Service and A2 by Moody's Investors Service.

Additional information on the City of Monroe's long-term debt can be found in the Notes to Financial Statements on pages 39-42.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The declining economy has adversely affected several of the City of Monroe's main revenue sources. The reduction in revenue for Sales Tax, which includes local option and special local option sales tax, has been the most significant revenue reductions but this trend seems to have stabilized. This reduction in revenue has resulted in the City's continued close monitoring of all revenues and expenditures.

The following indicators were taken into account when adopting the General Fund budget for 2015:

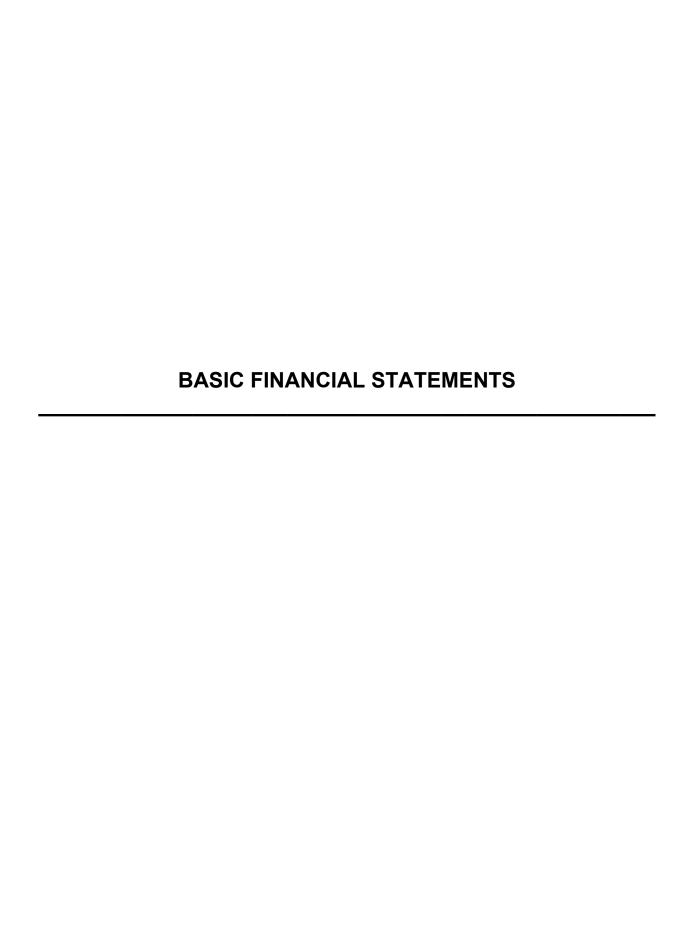

- Local option sales tax revenue (LOST) and special purpose local option sales tax (SPLOST) revenues due
 to the re-negotiation of distribution percentages as required by Georgia Law have stabilized and were
 budgeted using new trend information.
- Revenue from the new Title and Ad Valorem Tax (TAVT) for motor vehicles was increased to a level consistent with the last two years of collections.
- Cost of implementation of a 2% COLA and 3% merit pool for employee salaries was included.
- Five new positions were approved for fiscal year 2015 and five positions were unfunded.

Anticipated revenues in the General Fund budget are \$9.7 million which includes transfers and other financing sources, virtually unchanged from the 2014 budget. The 2015 budget was developed and adopted before 2014 fiscal year-end and reflects conservative revenue figures. No decrease in fund balance of General Fund is budgeted for fiscal year 2015.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of City of Monroe's finances for all those with an interest in our government's finances. Questions concerning this report or requests for additional information may be addressed to:

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2014

Amounts reported for governmental activities in the statement of activities are different because:

Amounts reported for governmental activities in the statement of activities are uniform because.	
Net change in fund balances - total governmental funds	\$ 505,629
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.	(312,453)
Donations of capital assets increase net position in the statement of activities but do not appear in the governmental funds because they are not current financial resources.	265,310
In the statement of activities only the gain on the sale of capital assets is recorded. However, in the governmental funds, the proceeds from the sale increase financial rescoures. Thus, the change in net position differs from the change in fund balance by the net book value of the capital assets sold.	(658)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	36,429
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.	838,524
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	 (42,611)
Change in net position - governmental activities	\$ 1,290,170

CITY OF MONROE, GEORGIA NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Monroe, Georgia (the "City") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

Incorporated in 1821, under the laws of the State of Georgia, the City of Monroe is governed by a nine member Mayor/Council form of government. The mayor is elected to a four-year term, and council members are elected to staggered four-year terms. The Mayor serves as the Chief Executive Officer and the other eight council members serve on a part-time basis. The Mayor is assisted by a city administrator to handle the daily operations of the City.

The City's major operations include public safety, fire protection, public works maintenance, utility services and general administrative services. In addition, the City exercises sufficient control over other governmental authorities that are included as part of the City's reporting entity.

The accompanying financial statements present the City and its component units, entities for which the City is considered to be financially accountable and can impose its will. The discretely presented component units are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the City.

The Downtown Development Authority was activated by resolution in 1985 to promote and further develop trade, commerce, industry and employment opportunities within the City of Monroe, Georgia. It operates under an eight member board appointed by the City, one of which is a member of the City Council. The City has the ability to impose its will on the Authority. The Authority does not issue separate financial statements and is included as a discretely presented component unit in the City's financial report.

The Monroe Area Convention and Visitors Bureau Authority was activated by resolution in 2008 to promote and further develop trade and tourism opportunities within the City of Monroe, Georgia. It operates under an eight member board appointed by the City, one of which is a member of the City Council. The City has the ability to impose its will on the Convention and Visitors Bureau. The Convention and Visitors Bureau does not issue separate financial statements and is included as a discretely presented component unit in the City's financial report.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component units for which the primary government is financially accountable. The statement of net position will include non-current assets and non-current liabilities. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not considered program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes received up to sixty days after year end, sales taxes, franchise taxes, licenses, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

In accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Non-exchange Transactions," the corresponding assets (receivables) in non-exchange transactions are recognized in the period in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source.

The City reports the following major governmental fund:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The City reports the following major proprietary funds:

The **Utilities Fund** accounts for the operation and maintenance of the City's water and sewer, gas, electric, and cable utility services.

The **Solid Waste Fund** accounts for the operation and maintenance of the City's transfer station and solid waste disposal.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements with the exception of interfund services provided and used.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges for goods and services provided. Operating expenses of the enterprise funds include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Budgets

Annual appropriated budgets are adopted for all governmental funds, with the exception of capital projects funds for which project length budgets are adopted. Budgets are adopted on a modified accrual basis, which is consistent with generally accepted accounting principles for governmental funds. All appropriations lapse at fiscal year end. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is used in the City's general fund. Encumbrances outstanding at year end are reported as committed or assigned fund balance since they do not constitute expenditures or liabilities. There were no outstanding encumbrances at December 31, 2014.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Deposits and Investments

Georgia statutes authorize the City to invest in the following: (1) obligations of Georgia or any other state; (2) obligations of the United States; (3) obligations fully insured or guaranteed by the United States government or one of its agencies; (4) obligations of any corporation of the United States government; (5) prime bankers' acceptances; (6) the State of Georgia local government investment pool; (7) repurchase agreements; and (8) obligations of any other political subdivisions of the State of Georgia. Any investment or deposit in excess of the federal depository insured amounts must be collateralized by an equivalent amount of state or U.S. obligations. For purposes of the statement of cash flows, all highly liquid investments with an original maturity of less than 90 days are considered to be cash equivalents. Investments are reported at fair value as determined by quoted market prices.

F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds is reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, represent long-term borrowing arrangements with established repayment schedules, and are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

G. Inventories

The costs of governmental fund type inventories (which are not significant to the City) are recorded as expenditures when purchased rather than when consumed (purchase method). Inventories of the proprietary funds are valued at cost using the first-in/first-out (FIFO) method.

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2014, are recorded as prepaid items in both government-wide and fund financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. The City capitalizes intangible assets with an initial, individual cost of more than \$100,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The City has elected to capitalize all general infrastructure assets regardless of the acquisition date and has used the estimated historical cost to value these assets.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets of the City are depreciated using the straight line method over the following estimated useful lives:

Asset Class	Estimated Useful Life
Infrastructure	15-50
Buildings and improvements	20-50
Vehicles	5
Furniture and fixtures	10
Machinery and equipment	5-15

J. Restricted Assets

Certain proceeds of enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants. The "revenue bond current debt service" account is used to segregate resources accumulated for debt service payments over the next twelve months.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. The City only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide and proprietary fund statements of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items that qualify for reporting in this category. The governmental funds balance sheet reports unavailable revenues from property taxes and other sources as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available under the modified accrual basis of accounting.

L. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for non-vesting accumulated rights to receive sick pay benefits since the City does not have a policy to pay any amounts when employees separate from service with the City. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

M. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the term of the bonds using the effective interest method. Bonds payable are reported net of the applicable discount or premium. Issuance costs are expensed in the period in which they are incurred.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Long-Term Obligations (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

N. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities and deferred inflows of resources under the current financial resources management focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent. Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when they include amounts that can be spent only for the specific purposes stipulated by the constitution, external resource providers, or through enabling legislation.

Committed – Fund balances are reported as committed when they include amounts that can be used only for the specific purposes determined by a formal action (passage of a resolution) of the City Council. Furthermore, a resolution of the City Council is also required to rescind the commitment of fund balance.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Fund Equity (Continued)

Assigned – Fund balances are reported as assigned when they include amounts intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. The resolution passed by the City Council which adopted the City's fund balance policy has delegated the Finance Director the authority to assign amounts to be used for specific purposes.

Unassigned – Fund balances are reported as unassigned as the residual classification for the City's general fund and includes all spendable amounts not contained in the other classifications.

The City has established a minimum fund balance policy in the General Fund for working capital purposes to eliminate cash flow issues, cover the cost of expenditures caused by unforeseen emergencies, cover shortfalls caused by revenue declines, and to eliminate any short-term borrowing for cash flow purposes. The City will maintain the equivalent of approximately two (2) months of operating and debt service expenditures, including transfers to other funds, which amounts to approximately 17% of budgeted General Fund expenditures.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: (1) Committed, (2) Assigned, (3) Unassigned.

Net Position – Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

O. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures/expenses during the period. Actual results could differ from those estimates.

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and therefore are not reported in the funds." The details of this \$4,906,119 difference are as follows:

Bonds payable	\$ (3,795,000)
Bond premium	(58,240)
Deferred charges on refunding	109,134
Accrued interest payable	(43,350)
Capital leases payable	(518,861)
Compensated absences	 (599,802)
Net adjustment to reduce fund balance- total governmental funds	
to arrive at net position - governmental activities	\$ (4,906,119)

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their useful lives and reported as depreciation expense." The details of this \$312,453 difference are as follows:

Capital outlay	\$ 1,096,870
Depreciation expense	 (1,409,323)
Net adjustment to decrease net changes in fund balances - total	
governmental funds to arrive at changes in net position of	
governmental activities	\$ (312,453)

Another element of that reconciliation explains that "The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has an effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items." The details of this \$838,524 difference are as follows:

Principal repayment of bonds	\$ 585,000
Principal repayment of capital leases	253,524
Net adjustment to increase net changes in fund balances - total	
governmental funds to arrive at changes in net position of	
governmental activities	\$ 838,524

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

The final element of that reconciliation explains that "Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this \$42,611 difference are as follows:

Compensated absences	\$ (49,341)
Accrued interest	7,313
Amortization of deferred charges on refunding	(22,976)
Amortization of bond premiums	22,393
Net adjustment to decrease net changes in fund balances - total	
governmental funds to arrive at changes in net position of	
governmental activities	\$ (42,611)

NOTE 3. LEGAL COMPLIANCE - BUDGETS

A. Budgets and Budgetary Accounting

The City of Monroe, Georgia employs the following procedures in establishing its annual budget:

- 1. Prior to January 1, the City Administrator submits to the Mayor and City Council a proposed operating budget for the fiscal year commencing on January 1. The operating budget includes proposed expenditures and the means for financing them.
- 2. The City Council holds a public hearing on the budget, giving notice thereof at least ten days in advance by publication in the official organ of the City of Monroe, Georgia.
- 3. The budget is then revised and adopted or amended by the City Council at a subsequent regular meeting in the year to which it applies and within forty-five days following January 1.
- 4. The adopted budget may be revised during the year only by formal action of the City Council in a regular meeting and no increase shall be made therein without provision also being made for financing same, for anything above the legal level of budgetary control, which is the department level. However, transfers within a department may be made within any fund without council approval. The final budget amounts shown in these financial statements reflect amendments approved by the City Council.

NOTE 4. DEPOSITS AND INVESTMENTS

Total deposits and investments as of December 31, 2014 are summarized as follows:

\$ 6,873,756
9,020,467
6,439,681
\$ 22,333,904
\$ 17,366,055
 4,967,849
\$ 22,333,904
\$

Credit risk. State statutes and City policy authorize the City to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime bankers' acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia. The City's investments in the Municipal Competitive Trust were not rated.

At December 31, 2014, the City had the following investments:

Investment	Maturities	 Fair Value
Municipal Competitive Trust - Short-term Municipal Competitive Trust - Intermediate Certificate of deposit	91.63 days 5.07 years 6 months	\$ 3,520,557 1,447,292 1,471,832
Total		\$ 6,439,681

Interest rate risk: The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

NOTE 4. DEPOSITS AND INVESTMENTS (CONTINUED)

Custodial credit risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes and City policy require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of December 31, 2014, the City and its component units are insured or collateralized as defined by GASB pronouncements and State of Georgia statutes.

NOTE 5. RECEIVABLES

Property taxes are levied on property values assessed as of January 1. The City bills and collects its own property taxes. The taxes are levied by October 20 based on the assessed value of property as listed on the previous January 1 and are due on December 20 of each year.

The billings are considered past due on December 21, at which time the applicable property is subject to lien and penalties and interest are assessed.

Property taxes are recorded as receivables and deferred inflows of resources in the General Fund when assessed and revenues are recognized when available.

Receivables at December 31, 2014, for the City's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	 General		Utilities	 Solid Waste	Nonmajor vernmental Funds
Receivables:	 _	· ·			
Taxes	\$ 317,081	\$	-	\$ -	\$ 2,239
Accounts	49,359		4,156,509	331,279	-
Due from other					
governments	223,818		11,381	-	251,990
Less allowance					
for uncollectible	 _		116,496	-	_
Net total receivable	\$ 590,258	\$	4,051,394	\$ 331,279	\$ 254,229

NOTE 6. CAPITAL ASSETS

Capital asset activity for the fiscal year ended December 31, 2014 is as follows:

For governmental funds, compensated absences are liquidated by the General Fund. The City estimates the current portion of compensated absences based on historical trends of usage by employees.

NOTE 7. LONG-TERM DEBT (CONTINUED)

General Obligation Bonds. In October 2006, the City issued General Obligation Refunding Bonds (Series 2006) to provide funds to advance refund \$4,270,000 in aggregate principal amount of the City's Series 2000 General Obligation Bonds. These bonds were issued for an original amount of \$4,430,000 bearing interest from 3.625% to 5.00% per annum payable semi-annually on April 1 and October 1 and maturing in 2019.

The debt service to maturity on the general obligation bonds is as follows:

	Series 2006								
Year Ending	Principal			Interest			Total		
December 31,									
2015	\$	645,000		\$	173,400		\$	818,400	
2016		700,000			141,150			841,150	
2017		760,000			106,150			866,150	
2018		815,000			75,750			890,750	
2019		875,000			35,000			910,000	
Total	\$	3,795,000		\$	531,450		\$ 4	4,326,450	

Revenue Bonds. The City issued the following revenue bonds in order to finance construction and system extension:

In July 2003, the City issued the Combined Utility Revenue Bonds (Series 2003) in the original amount of \$13,275,000 bearing interest at an average rate of 3.06% payable each June 1 and December 1 beginning 2003 until 2018. The debt service to maturity is as follows:

	Series 2003								
Year Ending	P	Principal			Interest		Total		
December 31,									
2015	\$	575,000			89,600		\$	664,600	
2016		600,000			66,600			666,600	
2017		625,000			42,500			667,500	
2018		440,000			17,600			457,600	
Total	\$	2,240,000		\$	216,300		\$	2,456,300	

NOTE 7. LONG-TERM DEBT (CONTINUED)

In October 2006, the City issued the Combined Utility Revenue Refunding Bonds (Series 2006) to advance refund \$14,720,000 in aggregate principal amount of the Series 2001 Revenue Bonds. These bonds were issued for an original amount of \$15,040,000 bearing interest from 4.00% to 5.00% payable each June 1 and December 1 and maturing in 2025.

The debt service to maturity on the Series 2006 revenue refunding bonds are as follows:

	Series 2006								
Year Ending	Principal			Interest			Total		
December 31,									
2015	\$	1,060,000		\$	707,163		\$ 1,767,163		
2016		1,115,000			654,163		1,769,163		
2017		1,170,000			598,413		1,768,413		
2018		1,230,000			539,913		1,769,913		
2019		1,290,000			478,413		1,768,413		
2020-2024		7,475,000			1,372,512		8,847,512		
2025		1,700,000			70,126	_	1,770,126		
Total	\$	15,040,000	•	\$	4,420,703		\$ 19,460,703		

As part of the refundings mentioned above, the City has defeased certain outstanding general obligation and revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. On December 31, 2014, the outstanding amount of bonds considered defeased is as follows:

Series 2000 General Obligation Bonds	\$ 3,705,000
Series 2001 Revenue Bonds, Refunded by Series 2006	14,720,000

Capital Leases. In August 2013, the City entered into a lease agreement as lessee with a financial institution to finance the acquisition of a fire truck in the amount of \$332,472. As the ownership of the fire truck transfers to the City at the conclusion of the lease it is considered a capital lease for financial reporting purposes. The lease bears interest at 2.11% and annual payments in the amount of \$115,182 began in June 2014 and conclude in June 2016.

NOTE 7. LONG-TERM DEBT (CONTINUED)

Capital Leases (continued). In October 2013, the City entered into a lease agreement as lessee with a financial institution to finance the acquisition of several vehicles for the City's police department in the amount of \$439,913. As the ownership of each vehicle transfers to the City at the conclusion of the lease it is considered a capital lease for financial reporting purposes. The lease bears interest at 1.63% and annual payments in the amount of \$151,444 began in October 2014 and conclude in October 2016.

The City's total debt service requirements to maturity on its capital leases are as follows:

	GovernmentalActivities			
Year Ending December 31,				
2015	\$	266,626		
2016		266,626		
Total minimum lease payments		533,252		
Less amount representing interest		14,391		
Present value of future minimum lease payments	\$	518,861		

The original cost of the City's assets under capital lease arrangements at December 31, 2014 is \$826,442 and there has been \$103,519 of accumulated depreciation as of year-end.

Notes Payable. The City has incurred debt to the Georgia Environmental Finance Authority (GEFA) for construction of various water and sewer system improvement projects. As of December 31, 2014, the City's note, which has an outstanding principal balance of \$2,478,550, is still in the construction phase. The repayment terms for this note will be determined upon completion of the projects and receipt of the final draw on the note. Interest accrues at 3.89%.

In August 2013 the City executed a Water Conservation Loan with GEFA that will allow the City to borrow up to \$2,000,000 to replace approximately 7,000 water meters with new automated meter reading technology. As of December 31, 2014, the City's note, which has an outstanding principal balance of \$1,228,535, is still in the construction phase. As with the City's other note payable to GEFA, repayment terms will be determined upon completion of the projects and receipt of the final draw on the note. Interest accrues at 0.50%. As of December 31, 2014, the City is awaiting reimbursement from GEFA on draws totaling \$11,381.

NOTE 8. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of December 31, 2014 is as follows:

Due to/from other funds:

Receivable Fund	Payable Fund	 Amount		
General Fund	Utilities Fund	\$ 1,309,885		
General Fund	Solid Waste Fund	29,507		
General Fund	GUTA Fund	12,922		
Solid Waste Fund	General Fund	119,305		
Solid Waste Fund	Utilities Fund	262,989		
Utility Fund	Solid Waste Fund	2,141		
Utility Fund	General Fund	484		
Utility Fund	GUTA Fund	 48,463		
		\$ 1,785,696		

The outstanding balances between funds result mainly from the time lag between the dates that transactions are recorded in the accounting system, and payments between funds are made.

Interfund transfers:

Transfers In	Transfers Out	Amount
Nonmajor governmental funds Nonmajor governmental funds	General Fund Utilities Fund	\$ 787,650 31,769 \$ 819,419
Utilities Fund	General Fund	<u>\$ 5,151</u>
General Fund General Fund	Utilities Fund Solid Waste Fund	\$ 1,627,012

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 9. PENSION PLAN

Plan Description

The City, as authorized by the City Council, has established a defined benefit pension plan (The City of Monroe Retirement Plan) covering all full-time employees. The City's pension plan is affiliated with the Georgia Municipal Employee Benefit System (GMEBS), an agent multiple-employer pension plan administered by the Georgia Municipal Association. Contributions made by the City are commingled with contributions made by other members of GMEBS for investment purposes. The City does not own any securities on its own. Investment income from the securities is allocated on a pro rata basis. The Georgia Municipal Association issues a publicly available financial report that includes financial statements and required supplementary information for GMEBS. That report may be obtained by writing to Georgia Municipal Association, Risk Management and Employee Benefit Services, 201 Pryor Street, SW, Atlanta, Georgia 30303 or by calling (404) 688-0472.

As provided by state law, benefit provisions for participants in GMEBS are established by the respective employers. As authorized by City Council, the plan provides pension benefits and death and disability benefits for plan members and beneficiaries. All employees, excluding elected officials, who work thirty hours or more per week, are eligible to participate after one year. Benefits vest after five years of service. A City employee who retires at age 65 with five years of service is entitled to benefits of 2.0% of final average earnings in excess of covered compensation. An employee may elect early retirement at age 55 provided he has a minimum of 25 years total credited service to receive full benefits, otherwise early retirement may be elected after only 10 years of service for reduced benefits. Elected officials are entitled to \$30 for each year of service after reaching normal retirement age.

At July 1, 2014 the date of the most recent actuarial valuation, there were 320 participants consisting of the following:

Retirees and beneficiaries currently receiving benefits	72
Terminated vested participants not yet receiving benefits	51
Active employees - vested	178
Active employees - nonvested	19
Total	320

NOTE 9. PENSION PLAN (CONTINUED)

Funding Policy

The Plan is subject to minimum funding standards of the Georgia Public Retirement Systems Standards law. The board of Trustees of GMEBS has adopted a recommended actuarial funding policy for the plan which meets state minimum requirements and will accumulate sufficient funds to provide the benefits under the plan. The funding policy for the plan is to contribute an amount equal to or greater than the recommended contribution described below. For 2014, the actuarially determined contribution rate was 16.73% of covered payroll. Plan members are not required to contribute to the Plan.

For 2014, the City's recommended contribution was \$1,506,697. Actual contributions totaled \$1,506,697. The recommended contribution was determined as part of the July 1, 2013 actuarial valuation using the projected unit credit actuarial cost method. Actuarial assumptions include a 7.75% rate of return on investments, projected salary increases of 3.5%, and an inflation rate assumption of 3.5%. The equivalent single amortization period, and related method, for amortizing the initial unfunded actuarial accrued liability is 13 years as a level dollar amount. The amortization period is closed for this plan year. The actuarial value of the plan assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a ten year period.

Employer Contributions

Fiscal Year Ended December 31,	Ended Pension		Percentage of APC Contributed	Net Pension Obligation	
2014	\$ 1,506,697	\$ 1,506,697	100.0 %	\$ -	
2013	1,388,468	1,388,468	100.0	-	
2012	1,223,915	1,223,915	100.0	_	

NOTE 9. PENSION PLAN (CONTINUED)

The following is a schedule of funding progress, using the actuarial cost method:

			(b-a)			
		(b)	Unfunded			[(b-a)/c)]
	(a)	Actuarial	Actuarial			UAAL as a
Actuarial	Actuarial	Accrued	Accrued	(a/b)	(c)	Percentage
Valuation	Value of	Liability	Liability	Funded	Covered	of Covered
Date	Assets	 (AAL)	 (UAAL)	Ratio	Payroll	Payroll
7/1/14	\$ 15.137.215	\$ 20.496.231	\$ 5.359.016	73.85 %	\$ 8.319.435	64.42 %

The above schedule of funding progress serves as a surrogate for the funded status and the funding progress of the plan. The required schedule of funding progress immediately following the notes to the financial statements presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liability.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of July 1, 2014.

NOTE 10. JOINT VENTURE

Under Georgia law, the City, in conjunction with other cities and counties in the 12 county Northeast Georgia area, is a member of the Northeast Georgia Regional Commission (RC). Dues to the RC are assessed at the County level and are, accordingly, paid by Walton County. Membership in the RC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the RC in Georgia. The RC Board membership includes the chief elected official of each county and various municipalities of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of the RC. Separate financial statements may be obtained from the RC's administrative office at 305 Research Drive, Athens, Georgia 30605.

NOTE 11. RELATED ORGANIZATIONS

The City's council is responsible for appointing a majority of the board members of the City of Monroe, Georgia Housing Authority. However, the City has no further accountability for the Authority.

NOTE 12. RISK MANAGEMENT

The City is exposed to various risks of losses related to: torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has joined together with other municipalities in the state as part of the Georgia Municipal Association Group Self-Insurance Workers' Compensation Fund, a public entity risk pool currently operating as a common risk management and insurance program for member local governments.

As part of this risk pool, the City is obligated to pay all contributions and assessments as prescribed by the pool, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issues, all incidents which could result in the funds being required to pay any claim of loss. The City is also to allow the pool's agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defined by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense. Settled claims have not exceeded coverage in the past three years.

The City carries commercial insurance for other risks of losses. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage in the current or prior year.

The City is self-insured for employee group health insurance. The City maintains specific stop loss coverage in the amount \$50,000 per covered individual for employee group health insurance. A liability for employee group health insurance and workers' compensation claims is recognized in the General Fund when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. The liability includes an estimate for claims that have been incurred but not reported.

NOTE 12. RISK MANAGEMENT (CONTINUED)

Changes in the balances of claims liabilities during the past two years are as follows:

Fiscal Year	Ye	Seginning of Current Year Year Claims Claims and Changes Liability in Estimates		Claims Paid		End of Year Claims Liability		
2014 2013	\$	205,939 586,520	\$	1,412,109 1,484,588	\$	1,317,487 1,865,169	\$	300,561 205,939

The ending claims liability is expected to be paid during 2015 and, therefore, has been classified as a current liability.

NOTE 13. COMMITMENTS AND CONTINGENCIES

Agreements with the Municipal Electric Authority of Georgia:

The Municipal Electric Authority of Georgia (MEAG) is a public corporation and an instrumentality of the State of Georgia created to supply electricity to local government electric distribution systems. As provided by State law, MEAG establishes rates and charges so as to produce revenues sufficient to cover its costs, including debt service, but it may not operate any of its projects for profit unless any such profits inure to the benefit of the public.

As of December 31, 2014, the City is an electric utility participant in MEAG and obligated to purchase all of its bulk power supply requirements from MEAG for a period not to exceed 50 years. The City has agreed to purchase all of its future power and energy requirements in excess of that received by the City through the Southeastern Power Administration at prices intended to cover the operating costs of the systems and to retire any debt incurred by MEAG. In the event that revenues are insufficient to cover all costs and retire the outstanding debt, each participating City has guaranteed a portion of the unpaid debt based on its individual entitlement shares of the output and services of generating units acquired or constructed by MEAG. In addition, in the event of discontinued service to a participant in default, the City would be obligated to purchase additional power subject to contractual limitations. Payments to MEAG are made monthly based on KWH usage. The total payments under these contracts amounted to \$11,171,860 in 2014.

At December 31, 2014, the outstanding debt of MEAG was approximately \$5.8 billion. The City's guarantee varies by individual projects undertaken by MEAG and as of December 31, 2014 totals approximately \$93.5 million.

NOTE 13. COMMITMENTS AND CONTINGENCIES (CONTINUED)

Agreements with the Municipal Gas Authority of Georgia:

The City has also entered into a contract for wholesale natural gas purchases with the Municipal Gas Authority of Georgia (MGAG) that requires the City to purchase all of its natural gas from MGAG. The gas supply contract with MGAG authorizes MGAG to establish rates and charges so as to produce revenues sufficient to cover its operating costs and retire its bonds issued to acquire long-term gas supplies for sale to its members, including the City. In the event that revenues are insufficient to cover all costs and retire the bonds issued by MGAG, the City is obligated to pay its "obligation share" of the costs of the gas supply and related services MGAG provides to the City, which costs includes amounts equal to principal and interest on MGAG's bonds. These obligations, which extend through the year 2016, are general obligations of the City to which the City's full faith, credit and taxing powers are pledged. The City's obligation to MGAG for gas supply costs are based on MGAG's costs to provide such supply, including bonds issued to purchase long-term rights to bulk supply. Payments to MGAG are made monthly based on actual usage. The total payments under these contracts amounted to \$2,309,282 in 2014.

At December 31, 2014, the outstanding debt of MGAG was approximately \$400.6 million. The City's guarantee varies by individual projects undertaken by MGAG and totals approximately \$4.6 million at December 31, 2014.

Grant Contingencies:

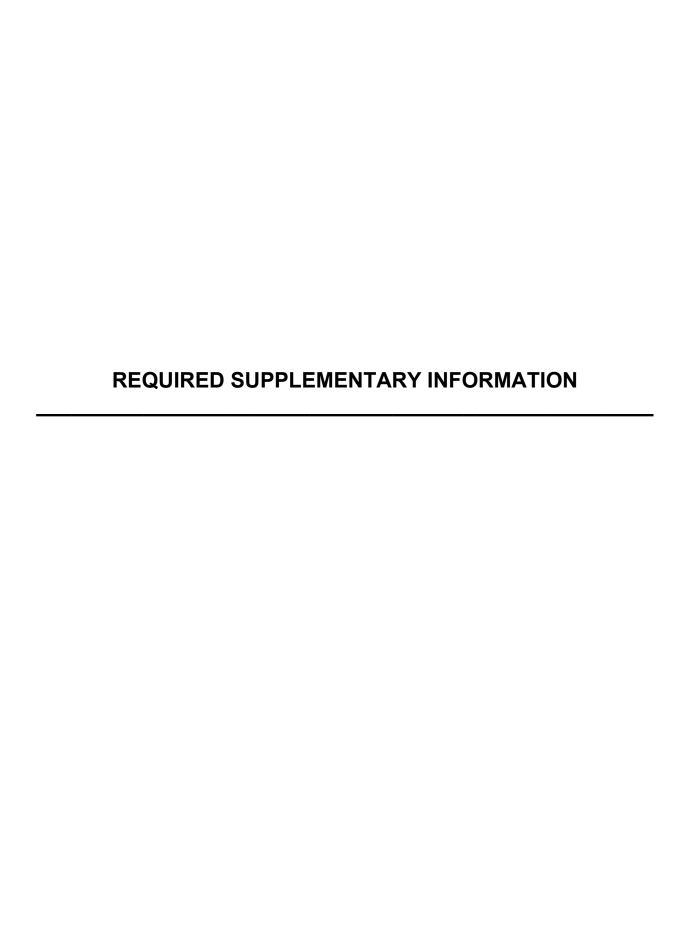

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, management of the City believes such disallowances, if any, will not be significant.

Contractual Commitments:

As of December 31, 2014, the City has contractual commitments on uncompleted contracts of \$1,802,070 primarily for infrastructure improvements to its highways and streets as well as to its utilities system.

NOTE 14. HOTEL/MOTEL LODGING TAX

The City imposes a 5% hotel/motel tax on lodging facilities within the City. Revenues were \$29,129 for the year ended December 31, 2014. Of this amount, 86%, or \$25,000, was expended for the promotion of tourism.

Note: See assumptions used for the Schedule of Funding Progress in Note 9 to the financial statements.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenues that are restricted or committed to expenditures for specified purposes.

- <u>Forfeited Drug Fund</u> This fund is used to account for the City's share of monies that have been forfeited through the court system that are restricted for law enforcement purposes.
- <u>Hotel/Motel Tax Fund</u> This fund is used to account for hotel/motel taxes collected that are restricted for promotion of trade and tourism in the City.

DEBT SERVICE FUND

Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

<u>Debt Service Fund</u> – This fund is used to account for the accumulation of resources for, and payment of, principal and interest on the City's general obligation bonds.

CAPITAL PROJECTS FUNDS

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

- **GO Bond Fund** This fund is used to account for various improvement and construction projects financed by the City's general obligation bonds.
- <u>Capital Projects Fund</u> This fund is used to account for the receipts and disbursements of grant money used to fund various capital outlay projects of the City.
- <u>SPLOST Fund</u> This fund is used to account for the one percent Special Purpose Local Option Tax (SPLOST) funds collected by Walton County and disbursed to the City. The funds are used for specific capital projects as approved by voter referendum.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the City of Monroe's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

	<u>Page</u>
Financial Trends	62
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
Revenue Capacity	69
These schedules contain information to help the reader assess the City's most significant local revenue sources, property taxes and utility charges.	
Debt Capacity	83
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Demographic and Economic Information	88
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	
Operating Information	91
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report for the relevant year.

- (1) The allocation of charges for services to the various functions was changed in 2006 to more accurately reflect the nature of the City's activities.
- (2) The City received and expended several large grants in 2006 that had not been received in prior years.
- (3) In 2006, the City received fewer grants and contributions related to business-type activities than in prior years.
- (4) During 2007, the City eliminated the internal service funds and began acounting for revenue and expenditures in the general fund.
- (5) During 2006 several large industries closed resulting in lower utility revenue and expenses.
- (6) Economic conditions in 2008 caused decrease in new construction and therefore reducing revenue from tap fees and capital contributions.
- (7) In 2009, the City raised water and sewer rates, lost a major wholesale water customer mid-year, sold the Oconee County Gas system factors that would lower revenues but also lower expenses.
- (8) The City raised solid waste rates.
- (9) 2010 was the first year for its new regional training facility.
- (10) The City transferred additional funds to establish a stabilization fund coupled with an increase in expenses caused a decrease in the business type activities net position.
- (11) The City eliminated several positions city wide and redesigned health insurance benefits contributing to in an increase in net position which is in line with historic trends.
- (12) Utility rates were restructured coupled with an increase in telecommunication customer base.

GOVERNMENTAL ACTIVITIES TAX REVENUES BY SOURCE LAST TEN YEARS

(accrual basis of accounting)

2014		3,216,546	2,050,222	263,86	2	852,020	6,382,650

⁽¹⁾ Sales tax increase in 2007 was due to the first year for collection of Special Purpose Local Option Sales Tax (SPLOST).

⁽²⁾ Franchise tax decrease in 2008 was due to the closing of an industry where Georgia Power paid franchise tax to the city.

⁽³⁾ Sales tax decrease in 2010 was due to reduction in the amount of SPLOST collected.

⁽¹⁾ The variances in nonspendable fund balance in the general fund is due to advances to the Solid Waste Fund.

⁽²⁾ The decrease in unassigned fund balance of the general fund was due to excess health insurance costs for which there were no offsetting revenues.

⁽³⁾ The decreasing restricted fund balance in nonmajor governmental funds is due to the completion of projects for which there were no offsetting revenues.

⁽⁴⁾ The increase in unassigned fund balance of the general fund was due to a transfer from the Capital Improvement Account in the Enterprise Fund.

⁽⁵⁾ The increase in unassigned fund balance of the general fund was due to a change in health insurance benefits.

⁽⁶⁾ The increase in restricted fund balance of the nonmajor governmental funds was due to an increase in cash in the SPLOST Fund.

⁽⁷⁾ The increase in unassigned fund balance of the general fund was due to the advance from solid waste, shown in non spendable prior years being repaid.

⁽¹⁾ The City issued refunding bonds in 2006.

⁽²⁾ The increase in 2007 taxes was due to the first year for collection of Special Purpose Local Option Sales Tax (SPLOST).

⁽³⁾ This includes SPLOST funds and reflects the first full year of projects.

⁽⁴⁾ Due to economic conditions the City reduced capital purchases during 2008 and in 2009.

⁽⁵⁾ Sales tax decrease in 2010 was due to reduction in the amount of SPLOST collected.

⁽⁶⁾ Increase in grant funds.

⁽⁷⁾ Prior year payment to Walton County to supplement debt service payment on SPLOST bonds.

⁽⁸⁾ Additional transfer in from business type activities increased fund balance.

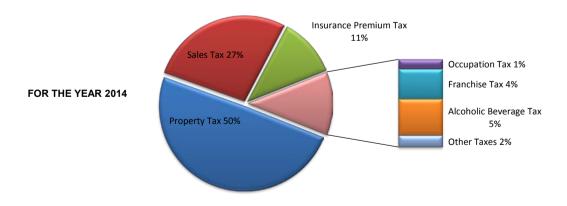

⁽⁹⁾ Due to decrease in health insurance expense, reduction of employee count along with other cost saving measures.

- (1) Sales tax increase in 2007 was due to the first year for collection of Special Purpose Local Option Sales Tax (SPLOST).
- (2) Sales tax decrease in 2009 was due to a combination of Local Option Sales Tax (LOST) collections down around \$170 thousand and fewer projects funded by Special Local Option Sales Tax (SPLOST).
- (3) Other tax increase in 2009 was due to tax revenue from Walton County for by-pass project.
- (4) Property tax increase in 2013 was due to a large abated property becoming taxable.
- (5) Sales tax decrease in 2013 was due to the renegotiation of allocation from Walton County.

- (1) Beginning in 2006, the commercial classification was divided into Small C&L and Large C&L. Large C&L is classified as usage consistently over over one million gallons per month through a single meter.
- (2) Residential, Commercial and Industrial sold decreased in 2008 due to increased conservation measures during drought.
- (3) Wholesale sold decreased due to agreement ending late in 2009 with Walton County Water & Sewer Authority.
- (4) Walton County Water & Sewer Authority purchased a small amount of wholesale during 2010.
- (5) Walton County Water & Sewer Authority purchased a greater amount of wholesale during 2013.

- (1) The decrease in Industrial in 2006 and 2007 is due to a large industrial customer closing its manufacturing operations. Residential usage for 2006 decreased from 2005 as a result of much milder weather conditions.
- (2) Large customer switched from Industrial Rate to Commercial Rate.
- (3) Decrease as a result of milder weather conditions.

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT

Governmental Unit	Obli	Net General gation Bonded ot Outstanding	Percentage Applicable to City of Monroe (1)	Amount Applicable to City of Monroe		
Debt repaid with property taxes:						
Walton County Board of Education	\$	56,960,000	15.50%	\$	8,828,800	
Overlapping debt		56,960,000			8,828,800	
Direct:						
City of Monroe		4,372,101	100.00%		4,372,101	
Total direct and overlapping debt	\$	61,332,101		\$	13,200,901	

Source: Assessed value data used to estimate applicable percentages provided by the Walton County Tax Assessors and the Georgia Department of Revenue Property Tax Division. Debt outstanding data obtained from Walton County's financial statements.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Monroe, Georgia. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

⁽¹⁾ The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county's taxable assessed value that is within the City's boundaries and dividing it by the county's total taxable assessed value.
