John Howard, Mayor
L. Wayne Adcock, Vice Mayor

April 23, 2018

To the Honorable Mayor, Members of the City Council, and Citizens of the
City of Monroe, Georgia:

The Comprehensive Annual Financial Report (CAFR) of the City of Monroe, Georgia for the fiscal year ended December 31, 2017 is hereby submitted as mandated by Official Code of Georgia §36-81-7. The financial statements were prepared in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

City Management assumes full responsibility for the accuracy, completeness and reliability of the presented data. To provide a reasonable basis for making these representations, management of the City of Monroe has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Monroe's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Monroe's framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Mauldin & Jenkins, LLC, a firm of certified public accountants, issued an unmodified opinion on the City of Monroe's financial statements for the year ended December 31, 2017. The independent auditor's report is located at the front of the financial section of this report.

If the threshold is met, the City of Monroe is required as part of the independent audit of the financial statements, to undergo a federally mandated "Single Audit" designed to meet the needs of federal grantor agencies. Information related to the single audit if applicable, including a schedule of expenditures of federal awards, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings are included in a separately issued single audit report. For fiscal year 2017, a Single Audit was not required.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Monroe's MD&A can be found immediately following the report of the independent auditors.

***Councilmembers: Larry A. Bradley • Ross Bradley • Myoshia Crawford
David Dickinson • Norman Garrett • Nathan Little • Lee P. Malcom***

Profile of the Government

The City of Monroe incorporated in 1821, is located in Northeast Georgia, approximately 40 miles east of Atlanta. Monroe is the county seat of Walton County. The City encompasses approximately 15 square miles and serves an estimated population of 13,664. The City of Monroe is empowered to levy a property tax on both real and personal property located within its boundaries.

The City operates under a Mayor/Council form of government. Policy-making and legislative authority are vested in a governing council consisting of the mayor and eight other members. The Mayor is elected at large, two Council Members are elected from super districts and six Council Members are elected by districts. Council members and the Mayor serve four-year staggered terms, with an election held every two years. City elections are conducted by the Walton County Board of Elections.

The City Administrator, who is appointed by the Mayor and Council, is responsible for carrying out the policies and ordinances of the Council and for overseeing the day-to-day operations of the City of Monroe.

The City of Monroe provides a full range of municipal services including police and fire protection, maintenance of streets, solid waste, building and zoning, code enforcement and library facilities. In addition to the usual government services, the City also provides a full range of utility services including electric, gas, water, wastewater, stormwater, cable, internet and telephone. The city owns and operates the Monroe/Walton County Airport as well as the Georgia Utility Training Academy whereby classes are conducted to train municipal and private sector employees in Electric, Water, Sewer, and Gas utilities.

A goal of the Mayor and City Council is to maintain the high quality of citizen services while keeping the property tax millage rates at some of the lowest among surrounding areas.

Also included as part of the City's reporting are the City of Monroe Downtown Development Authority (DDA) and the Monroe Area Convention and Visitors Bureau Authority (CVB). While both are legally separate entities, they are included as a component unit in the City of Monroe's financial statements.

The annual budget serves as the foundation for the City of Monroe's financial planning and control. All departments are required to submit budget requests to the City Administrator who compiles the proposed operating and capital budgets. The City Administrator presents a proposed budget to the Council during their annual retreat work session. The final budget is adopted in accordance with state law. Budget to actual comparisons are provided in this report for each individual governmental fund for which an annual budget has been adopted.

Local Economy

Monroe has risen out of the previous economic downturn and into a new period of substantial commercial and residential growth. This has given stability to the overall economy in Monroe and the surrounding area and stabilized the City's revenues and positioned the city for additional growth.

The majority of the City's commercial development lies along the Highway US 78/GA 138 corridor with a new commercial expansion planned around the Highway 138 extension, Charlotte Rowell Boulevard.

Among the top ten employers in the City, three are governments accounting for around 30% of the number of jobs in the top ten employers and 17% of all jobs. Two of those government employers, Walton County Board of Commissioners and Walton County Board of Education, are also two of the City's top ten electric, water, gas and sewer customers.

Economic development is one of the City's main priorities. Local Option Sales Tax (LOST) and Special Purpose Local Option Sale Tax (SPLOST) revenues have steadily increased over the last few years but have not fully recovered to levels prior to the renegotiation of distribution that occurred in 2012. Some of this is attributed to revenues shifted over to the TAVT from sales taxes after the new state law went into effect in 2013.

Long-term Financial Planning

The City will begin construction in 2018 on the transportation project, Livable Centers Initiative (LCI) project which will extend along North Broad Street from West Marable Street to Mayfield Drive. In addition to constructing new or expanded sidewalks along both sides of the corridor, this project will include planting trees and shrubs, raised curbs, a center median, defined pedestrian crossings, pedestrian scale lighting and ADA-accessible curb ramps. Concurrent with this work, storm water sewer upgrades will be completed with project funds. This is also a Federally Funded program with a projected total cost of over \$2 million dollars.

This is a continuation of a previously funded TE project and will complement on-going efforts within the Broad Street Corridor providing connectivity between neighborhood and commercial uses along the Broad Street Corridor and Historic Downtown. In addition to the 1.5-mile, \$2 million-plus West Spring St. streetscape and sidewalk project under construction linking downtown with the west-end commercial corridor.

Capital projects are generally financed using available grants and the 2013 Series SPLOST fund. Capital Projects in the Enterprise Fund are paid from an Expansion and Repair fund and the Utility Municipal Competitive Trust fund.

Relevant Financial Policies

The purpose of the City of Monroe's financial management policy is to insure that the City conducts its investment, cash and debt management activities in a responsible manner in full compliance with Federal and State Law. The City is committed to providing adequate cash flows to meet all current and future obligations. Adherence to this policy has allowed the City to maintain financial stability, all cash funds are properly collateralized and no short-term financing has been needed to meet operations.

Additionally, it is the City's policy to maintain budgetary controls to ensure compliance with legal requirements of the State of Georgia. Policies are amended and kept up-to-date as often as possible to ensure legality and efficiency in our controls. The budget development is led by the City Administrator who according to local ordinance shall prepare and submit the annual operating budget and capital budget to the Mayor and Council. The annual appropriation resolution approved by the Mayor and Council is adopted for all fund types with the legal level of control at the department level. Finally, a public hearing is advertised and held and the final budget is advertised. The adopted budget may be revised during the year only by formal action of the City Council in a regular meeting and no increase shall be made without provision also being made for financing same. During the year the budget was amended by Council; further detail on these amendments can be found in the MD&A.

Major Initiatives

The City of Monroe continues to work closely with Georgia DOT and Walton County to implement the area's transportation initiatives. The Highway US 78/GA 138 area's growth has seen the need to address traffic in this area. This is one example of the partnership to improve our local transportation network. Another example is the partnership between Monroe and Walton County to complete a truck by-pass around the historic downtown area. This much needed connector is managed by the Georgia DOT and is in the initial stages of right-of-way acquisition. Construction is expected to commence in late 2019.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Monroe for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2016. This was the 15th consecutive year that the City has received this award. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual report, whose contents conform to program standards. The CAFR must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current CAFR continues to meet the Certificate of Achievement Program requirements, and we are submitting it to the GFOA to determine its eligibility for another award.

In addition, the City received for the 13th year the GFOA Award for Outstanding Achievement in Popular Annual Financial Reporting for its Popular Annual Financial Report (PAFR) for the fiscal year ended December 31, 2016. In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, the City must publish a PAFR whose contents conform to program standards of creativity, presentation, understandability, and reader appeal. We believe our current report continues to conform to the Popular Annual Financial Reporting requirements, and we are submitting it to GFOA to determine its eligibility for another certificate. This award is valid for a period of one year only.

Last but not least, the City submitted to GFOA its annual budget for the fourth consecutive year for the fiscal year beginning January 1, 2018. Last year was the 5th consecutive year the City has received this prestigious award for Distinguished Budget Presentation for fiscal year beginning January 1, 2017. In order to receive this award, the City must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device. This award is valid for a period of one year only. We believe our budget continues to meet the program requirements.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Finance Department. I would like to express my appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor and the City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Monroe's finances.

Respectfully submitted,

Beth Thompson
Finance Director

INDEPENDENT AUDITOR'S REPORT

**Honorable Mayor and Members
of City Council
City of Monroe, Georgia**

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the **City of Monroe, Georgia (the "City")** as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Monroe, Georgia, as of December 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Changes in the City's Net Pension Liability and Related Ratios, and the Schedule of City Contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Monroe, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of special purpose local option sales tax proceeds, as required by the Official Code of Georgia 48-8-121, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory and statistical sections are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

Other Information (continued)

The combining and individual nonmajor fund financial statements and schedules as well as the schedule of expenditures of special purpose local option sales tax proceeds (the “supplementary information”) are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 23, 2018 on our consideration of the City’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City’s internal control over financial reporting and compliance.

CITY OF MONROE, GEORGIA

Management's Discussion and Analysis

For the Fiscal Year Ended December 31, 2017

As management of the City of Monroe, we offer readers of the City of Monroe's financial statements this narrative overview and analysis of the financial activities of the City of Monroe, Georgia (the City) for the fiscal year ended December 31, 2017. We encourage readers to consider the information presented here in conjunction with the letter of transmittal at the front of this report and the City's financial statements, which follow this section.

Financial Highlights

- The assets and deferred outflows of resources of the City of Monroe exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$100,262,910 (reported as "net position"). Of this amount, \$13,885,008 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors.
- Total net position increased by \$5,873,074 during 2017 resulting primarily from business-type activities.
- As of the close of the fiscal year, the City of Monroe's governmental funds reported combined fund balances of \$8,212,801 an increase of \$721,675 in comparison with the prior year. Approximately 30.9% or \$2,537,155 of this amount is available for spending at the government's discretion (unassigned fund balance). At the end of the current fiscal year, unrestricted fund balance (the total of the committed, assigned and unassigned components of fund balance) for the general fund was \$2,547,894 or approximately 22.1% of total general fund expenditures.
- At the close of the fiscal year, assets and deferred outflows of resources in the City of Monroe's Utilities Fund exceeded its liabilities and deferred inflows by \$76,215,271. Of this, \$13,499,066 (unrestricted net position) is available to meet the Utilities' on-going obligations to its customers and creditors.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City of Monroe's net position changed during the fiscal year ended December 31, 2017. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, judicial, public safety, public works, health and welfare, culture and recreation, and housing and development. The business-type activities of the City include utilities, solid waste and utility training academy.

The government-wide financial statements include not only the City of Monroe itself (known as the primary government), but also a legally separate Downtown Development Authority and Convention & Visitors Bureau for which the City of Monroe exercises control over these component units by appointing its members. Financial information for these component units is reported separately from the financial information presented for the primary government.

The government-wide financial statements can be found on pages 15 and 16 of this report.

Fund Financial Statements. The fund financial statements provide a more detailed look at the City's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Monroe, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Monroe maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered a major fund. Data from the other six governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements on pages 58 and 59 of this report.

The City adopts an annual appropriated budget for its General, Special Revenue and Debt Service Funds. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget and can be found on page 20 of this report. Budgetary comparisons for Special Revenue and Debt Service Funds can be found on pages 60-62 of this report.

Proprietary Funds. The City of Monroe maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its utility, solid waste and training center operations. The Utility and Solid Waste funds are considered major and the GUTA (Georgia Utility Training Academy operations) fund is nonmajor. They are the same as those functions shown in the business-type activities in the Statement of Net Position and the Statement of Activities.

The City's proprietary fund financial statements are presented on pages 21-23.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24-55 of this report.

Other Supplementary Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Monroe's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 56 and 57 of this report.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial condition. In the case of the City of Monroe, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$100,262,910 at the close of the most recent fiscal year.

By far the largest portion of the City's net position, \$68,478,353 (68.3%) reflects its investment in capital assets such as land, buildings, equipment and infrastructure (streets, bridges, sidewalks and utility service lines) less any related outstanding debt that was used to acquire those assets. The City uses these capital assets to provide a variety of services to its citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The table on the following page summarizes the City's net position as of December 31, 2017 compared to the prior year end.

CITY OF MONROE, GEORGIA

Net Position

Fiscal Years 2017 and 2016

	Governmental		Business-Type		Total	
	Activities		Activities		Primary Government	
	2017	2016	2017	2016	2017	2016

Total net position	<u>\$ 21,561,050</u>	<u>\$ 20,526,785</u>	<u>\$ 78,701,860</u>	<u>\$ 73,863,051</u>	<u>\$ 100,262,910</u>	<u>\$ 94,389,836</u>

An additional portion of the City's net position (17.7%) represents resources that are subject to external restrictions on how they may be used. Finally, the remaining balance of net position, classified as unrestricted net position, totals \$13,858,293 (13.8%) and may be used to meet the government's ongoing obligations to citizens and creditors.

Although the net position in our business-type activities represents 78.5% of total net position, the City generally can only use these resources to finance the continuing operations of the business-type activities.

At the end of the current fiscal year, the City is able to report positive balances in all reported categories of net position. The overall net position of the City increased \$5,873,074 from the prior fiscal year. The reasons for this overall increase are discussed in the following sections for governmental activities and business-type activities.

CITY OF MONROE, GEORGIA

Governmental Activities. Governmental activities increased the City of Monroe's net position by \$1,034,265. Key elements of this increase are as follows:

- Transfers in from other funds totaling \$1,665,967
- Various departments in the General Fund staying well below budget for expenses.

The following graphs show the breakdown by percentage of governmental revenues and expenses.

Governmental Revenues FY 2017

Governmental Expenses FY 2017

Business-Type Activities. Business-type activities increased the City of Monroe's net position by \$4,838,809. The Utilities Fund, largest of the City's business-type activities, accounted for 87.9% of the operating expenses and approximately 89% of the operating revenues among business-type activities. Key elements are as follows:

- Various major Combined Utilities projects pushed back into following year, therefore reducing overall project expenses in 2016 even though other operational expenses increased.
- Increase in overall revenue due in part to the increase in solid waste service revenues, telecommunication (internet) customer base, particularly fiber customers, and an increase in electric revenues.

Financial Analysis of Governmental Funds

As noted earlier, the City of Monroe uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City of Monroe's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the Mayor and City Council.

The City's governmental funds reported combined fund balances of \$8,212,801, an increase of \$721,675 (9.6%) in comparison with the prior year. This increase is primarily due to accumulation of Capital Project and SPLOST funds. Approximately 30.9% of this amount (\$2,537,155) constitutes unassigned fund balance, which is available for spending at the City's discretion. The remainder of fund balance is nonspendable, restricted, committed, or assigned to indicate that it is 1) not in spendable form (\$112,615), 2) restricted for particular purposes (\$5,552,292), or 3) assigned for particular purposes (\$10,739).

The General Fund is the chief operating fund of the City of Monroe. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$2,537,155 of the total fund balance of \$2,753,250. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 22.0% of total General Fund expenditures, while total fund balance represents 23.9% of total General Fund expenditures.

A portion of fund balance in the General Fund is also restricted for the payment of debt service. This amount at year end was \$92,741 or 3.4%. The amount of nonspendable fund balance for the General Fund is made up of prepaid expenditures of \$112,615 or 4.1% of the General Fund's total fund balance.

Fund balance of the City of Monroe's General Fund decreased by \$218,250 during the current fiscal year. A key factor in this decrease was due to a decrease in transfers in.

Total fund balance for nonmajor special revenue funds at year-end was \$11,422. This total had a net decrease of \$6,270. Included above are the Forfeited Drug Fund and the Hotel/Motel Tax Fund. In the Forfeited Drug Fund, the decrease was primarily due to a decrease in revenue from cases forfeited through the court system with funds restricted for law enforcement purposes from prior years. The Hotel/Motel Tax Fund showed a slight increase due to an increase of revenues from the excise tax on lodging. This fund accounts for local room taxes collected with the fund balance restricted for tourism in the City.

The debt service fund has a total fund balance of \$115, all of which is restricted for the payment of debt service. Fund Balance of the nonmajor governmental funds in total increased \$939,925 from 2016, primarily due to SPLOST. Principal payments made during the year were \$810,000 and interest expenditures totaled \$32,725.

Proprietary Funds. The proprietary funds share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status. This provides a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

Unrestricted net position of the Utilities Fund at the end of the year amounted to \$13,499,066, the Solid Waste Fund amounted to \$1,150,959, and those for GUTA totaled (\$1,846). The combined increase in total net position for these funds was \$4,838,809.

For the year, the total net position of the Utilities Fund increased by \$4,316,887, the Solid Waste Fund increased by \$516,382 and the GUTA fund total net position increased by \$5,540. Financial analysis in regards to these funds can be found in the business-type activities section. This gives a total increase in proprietary funds net position of \$4,838,809.

General Fund Budgetary Highlights

The City of Monroe's General Fund budget is prepared according to Georgia Law and was amended as necessary by Council during the fiscal year. Primary differences between the original budget and the final amended budget for the General Fund are summarized as follows:

Revenues:

- Total budgeted revenues were amended from original to final budgets from \$8,338,138 to \$8,431,910 respectively.
- Actual revenues were \$6,351 more than budgeted.
- The largest variance comes from fines & forfeitures with a variance of \$149,034 due to a significant reduction in court fines. These decreases were partially offset by a large increase in aviation fuel and hanger fees.

Expenditures:

- Total budgeted expenditures increased from original to final budgets from \$9,793,820 to \$11,550,612 respectively.
- Total expenditures were \$27,822 less than budgeted.
- Judicial (Municipal court) was the primary department that came in under budget for the year.

A comparison on General Fund actual expenditures to budget can be found on page 20. The most significant variances in budget to actual within revenues came from a significant reduction in court fines, for a total variance of \$149,034 in *Fines and Forfeitures*.

Capital Asset and Debt Administration

Capital Assets. The City of Monroe's investment in capital assets for its governmental and business-type activities as of December 31, 2017, amounts to \$87,975,609 (net of accumulated depreciation). This investment in capital assets includes land, infrastructure, buildings and improvements, equipment, furniture & vehicles, and construction in progress.

Major capital asset events during the current fiscal year included the following:

Governmental type activities:

- Purchase of \$266,897 in machinery, equipment and vehicles.
- Construction in progress as of the end of the current fiscal year totaling approximately \$870,000.
- Sale of equipment, furniture or vehicles as surplus totaled \$100,666.

Business-type activities:

- Purchase of \$637,319 in specialized service installation equipment and vehicles.
- Construction in progress projects of \$909,000 in utility infrastructure & improvements.
- Construction in progress as of the end of the current fiscal year totaling \$1.4 million for electric, gas, sewer, water and cable upgrades and projects.

Additional information on the capital assets can be found in the Notes to Financial Statements on pages 40 and 41 of this report.

Long-term Debt. As of December 31, 2017, the City of Monroe's total long-term debt outstanding is \$19,796,027. Of this amount, \$3,448,900 comprises debt backed by the full faith and credit of the government. The remainder of City debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

Revenue bonds	-	-	14,810,000	16,770,000	14,810,000	16,770,000
Capital leases	245,900	-	-	-	245,900	-
Notes payable	1,500,000	-	1,537,127	1,643,516	3,037,127	1,643,516
Total	<u>\$ 3,448,900</u>	<u>\$ 2,513,000</u>	<u>\$ 16,347,127</u>	<u>\$ 18,413,516</u>	<u>\$ 19,796,027</u>	<u>\$ 20,926,516</u>

The City of Monroe's total debt decreased a net of \$1,130,488 during the current fiscal year.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10% of its total assessed valuation. The current debt limitation for the City of Monroe is \$42.8 million, which is in excess of the total bonded general obligation debt outstanding of \$1.703 million.

The City of Monroe's outstanding governmental activity debt or general obligation (GO) debt enjoys a favorable rating of A+ from Standard & Poor's Rating Service. The City's outstanding business-type activity debt or utility revenue bond debt is rated A- by Standard & Poor's Rating Service and A2 by Moody's Investors Service.

Additional information on the City of Monroe's long-term debt can be found in the Notes to Financial Statements on pages 42-45.

Economic Factors and Next Year's Budgets and Rates

In 2017 the city showed continued signs of emergence from the Great Recession's effects on property taxes, and other economic-related remittances such as sales taxes and permits. Although the City is seeing revenue and overall economic improvement, Council and the Finance Department are keen to carefully manage fund balances and to maintain an adequate amount of fund balance to meet debt obligations and help to mitigate against any future economic downturns.

The following indicators were taken into account when adopting the General Fund budget for 2018:

- Revenue from the Alcoholic Beverage Permits was increased due to the revised alcoholic beverage permit fees.
- A slight decline in overall Fines and Forfeitures collections from Municipal Court.
- Cost of implementation of a 3% cost of living adjustment (COLA) for employee salaries was included for a half year.
- Twelve new positions were approved for fiscal year 2018.
- Lease purchase of the Walton Plaza Shopping Center building for the Police Department and Municipal Court.

Anticipated revenues in the General Fund 2018 budget are \$11.5 million which includes transfers and other financing sources, or approximately \$850,000 more than the 2017 budget. The 2018 budget was developed and adopted before 2017 fiscal year-end and reflects conservative revenue figures. A slight decrease of \$78,529 in the fund balance of General Fund is budgeted for fiscal year 2018.

Requests for Information

CITY OF MONROE, GEORGIA

BALANCE SHEET GOVERNMENTAL FUNDS DECEMBER 31, 2017

	General Fund	Other Governmental Funds	Total Governmental Funds
ASSETS			
Cash	\$ 3,478,003	\$ 5,307,850	\$ 8,785,853
Taxes receivable	281,226	3,137	284,363
Due from other governments	260,452	166,223	426,675
Due from other funds	323,925	-	323,925
Prepaid expenditures	112,615	-	112,615
Total assets	<u>\$ 4,456,221</u>	<u>\$ 5,477,210</u>	<u>\$ 9,933,431</u>
LIABILITIES			
Accounts payable	\$ 1,151,188	\$ 17,659	\$ 1,168,847
Accrued liabilities	312,044	-	312,044
Unearned revenue	86,475	-	86,475
Total liabilities	<u>1,549,707</u>	<u>17,659</u>	<u>1,567,366</u>
DEFERRED INFLOWS OF RESOURCES			
Unavailable revenue - property taxes	153,264	-	153,264
Total deferred inflows of resources	<u>153,264</u>	<u>-</u>	<u>153,264</u>
FUND BALANCES			
Fund balances:			
Nonspendable:			
Prepaid items	112,615	-	112,615
Restricted:			
Law enforcement	-	7,885	7,885
Debt service	92,741	115	92,856
Capital projects	-	5,448,014	5,448,014
Tourism	-	3,537	3,537
Assigned:			
Public safety	10,739	-	10,739
Unassigned	2,537,155	-	2,537,155
Total fund balances	<u>2,753,250</u>	<u>5,459,551</u>	<u>8,212,801</u>
Total liabilities, deferred inflows of resources, and fund balances	<u>\$ 4,456,221</u>	<u>\$ 5,477,210</u>	

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the funds.	20,175,280
Some receivables are not available to pay for current-period expenditures and, therefore, are reported as unavailable revenue in the funds.	153,264
Deferred outflows and inflows of resources as well as the net pension liability related to the City's pension plan are not expected to be liquidated with expendable available financial resources and, therefore, are not reported in the funds.	(2,898,203)
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds.	(4,082,092)
Net position of governmental activities	<u>\$ 21,561,050</u>

The accompanying notes are an integral part of these financial statements.

The accompanying notes are an integral part of these financial statements.

CITY OF MONROE, GEORGIA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2017

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 721,675
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.	1,131,852
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(4,484)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(935,900)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	<u>121,122</u>
Change in net position - governmental activities	<u>\$ 1,034,265</u>

The accompanying notes are an integral part of these financial statements.

The accompanying notes are an integral part of these financial statements.

**CITY OF MONROE, GEORGIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Monroe, Georgia (the “City”) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

Incorporated in 1821, under the laws of the State of Georgia, the City of Monroe is governed by a nine member Mayor/Council form of government. The mayor is elected to a four-year term, and council members are elected to staggered four-year terms. The Mayor serves as the Chief Executive Officer and the other eight council members serve on a part-time basis. The Mayor is assisted by a city administrator to handle the daily operations of the City.

The City's major operations include public safety, fire protection, public works maintenance, utility services and general administrative services. In addition, the City exercises sufficient control over other governmental authorities that are included as part of the City's reporting entity.

The accompanying financial statements present the City and its component units, entities for which the City is considered to be financially accountable and can impose its will. The discretely presented component units are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the City.

The Downtown Development Authority was activated by resolution in 1985 to promote and further develop trade, commerce, industry and employment opportunities within the City of Monroe, Georgia. It operates under an eight member board appointed by the City, one of which is a member of the City Council. The City has the ability to impose its will on the Authority. The Authority does not issue separate financial statements and is included as a discretely presented component unit in the City's financial report.

The Monroe Area Convention and Visitors Bureau Authority was activated by resolution in 2008 to promote and further develop trade and tourism opportunities within the City of Monroe, Georgia. It operates under an eight member board appointed by the City, one of which is a member of the City Council. The City has the ability to impose its will on the Convention and Visitors Bureau. The Convention and Visitors Bureau does not issue separate financial statements and is included as a discretely presented component unit in the City's financial report.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component units for which the primary government is financially accountable. The statement of net position will include non-current assets and non-current liabilities. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not considered program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes received up to sixty days after year end, sales taxes, franchise taxes, licenses, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

In accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Non-exchange Transactions," the corresponding assets (receivables) in non-exchange transactions are recognized in the period in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source.

The City reports the following major governmental funds:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

The City reports the following major proprietary funds:

The **Utilities Fund** accounts for the operation and maintenance of the City's water and sewer, gas, electric, and cable utility services.

The **Solid Waste Fund** accounts for the operation and maintenance of the City's transfer station and solid waste disposal.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements with the exception of interfund services provided and used.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges for goods and services provided. Operating expenses of the enterprise funds include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Budgets

Annual appropriated budgets are adopted for all governmental funds, with the exception of capital projects funds for which project length budgets are adopted. Budgets are adopted on a modified accrual basis, which is consistent with generally accepted accounting principles for governmental funds. All appropriations lapse at fiscal year end. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is used in the City's general fund. Encumbrances outstanding at year end are reported as committed or assigned fund balance since they do not constitute expenditures or liabilities. There were no outstanding encumbrances at December 31, 2017.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The City's nonparticipating interest earning investment contracts are recorded at cost. The remaining investments are recorded at fair value. Increases or decreases in the fair value during the year are recognized as a component of interest income.

F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds is reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, represent long-term borrowing arrangements with established repayment schedules, and are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

G. Inventories

The costs of governmental fund type inventories (which are not significant to the City) are recorded as expenditures when purchased rather than when consumed (purchase method). Inventories of the proprietary funds are valued at cost using the first-in/first-out (FIFO) method.

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2017, are recorded as prepaid items in both government-wide and fund financial statements. The City accounts for prepaid items using the consumption method (i.e., the cost of prepaid items is recorded as expenditures / expenses when consumed rather than when purchased).

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. The City capitalizes intangible assets with an initial, individual cost of more than \$100,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation. The City has elected to capitalize all general infrastructure assets regardless of the acquisition date and has used the estimated historical cost to value these assets.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets of the City are depreciated using the straight line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Infrastructure	15-50
Buildings and improvements	20-50
Vehicles	5
Furniture and fixtures	10
Machinery and equipment	5-15

J. Restricted Assets

Certain proceeds of enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants. The "revenue bond current debt service" account is used to segregate resources accumulated for debt service payments over the next twelve months.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. The deferred charge on refunding reported in the government-wide and proprietary fund statements of net position qualifies for reporting in this category. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items that qualify for reporting in this category. The governmental funds balance sheet reports unavailable revenues from property taxes and other sources as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available under the modified accrual basis of accounting.

The City also has deferred inflows and outflows related to the recording of changes in its net pension liability. Certain changes in the net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the City's actuary which adjust the net pension liability for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. Changes in actuarial assumptions which adjust the net pension liability are also recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five year period. Additionally, any contributions made by the City to the pension plan before year end but subsequent to the measurement date of the City's net pension liability are reported as deferred outflows of resources. These contributions will reduce the net pension liability in the subsequent period.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for non-vesting accumulated rights to receive sick pay benefits since the City does not have a policy to pay any amounts when employees separate from service with the City. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

M. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the term of the bonds using the effective interest method. Bonds payable are reported net of the applicable discount or premium. Issuance costs are expensed in the period in which they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

N. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities and deferred inflows of resources under the current financial resources management focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Fund Equity (Continued)

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when they include amounts that can be spent only for the specific purposes stipulated by the constitution, external resource providers, or through enabling legislation.

Committed – Fund balances are reported as committed when they include amounts that can be used only for the specific purposes determined by a formal action (passage of a resolution) of the City Council. Furthermore, a resolution of the City Council is also required to rescind the commitment of fund balance.

Assigned – Fund balances are reported as assigned when they include amounts intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. The resolution passed by the City Council which adopted the City's fund balance policy has delegated the Finance Director the authority to assign amounts to be used for specific purposes.

Unassigned – Fund balances are reported as unassigned as the residual classification for the City's general fund and includes all spendable amounts not contained in the other classifications. The General Fund is the only fund of the City that may report a positive unassigned fund balance. Deficits in fund balance in other funds will be reported as unassigned.

The City has established a minimum fund balance policy in the General Fund for working capital purposes to eliminate cash flow issues, cover the cost of expenditures caused by unforeseen emergencies, cover shortfalls caused by revenue declines, and to eliminate any short-term borrowing for cash flow purposes. The City will maintain the equivalent of approximately two (2) months of operating and debt service expenditures, including transfers to other funds, which amounts to approximately 17% of budgeted General Fund expenditures.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Fund Equity (Continued)

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: (1) Committed, (2) Assigned, (3) Unassigned.

Net Position – Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

O. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Monroe Retirement Plan (the "Plan") and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

P. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures/expenses during the period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that “deferred outflows and inflows of resources as well as the net pension liability related to the City’s pension plan are not expected to be liquidated with expendable available financial resources and, therefore, are not reported in the funds.” The details of this \$2,898,203 difference are as follows:

Deferred outflows of resources - pension related items	\$ 973,049
Deferred inflows of resources - pension related items	(174,993)
Net pension liability	<u>(3,696,259)</u>
Net adjustment to reduce <i>fund balances - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u><u>\$ (2,898,203)</u></u>

Another element of that reconciliation explains that “long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds.” The details of this \$4,082,092 difference are as follows:

Bonds payable	\$ (1,703,000)
Deferred charges on refunding	45,469
Note payable	(1,500,000)
Capital leases payable	(245,900)
Accrued interest payable	(11,500)
Compensated absences	<u>(667,161)</u>
Net adjustment to reduce <i>fund balance- total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u><u>\$ (4,082,092)</u></u>

NOTES TO FINANCIAL STATEMENTS

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their useful lives and reported as depreciation expense.” The details of this \$1,131,852 difference are as follows:

Capital outlay	\$ 2,174,259
Depreciation expense	<u>(1,042,407)</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u><u>\$ 1,131,852</u></u>

Another element of that reconciliation explains that “The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has an effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.” The details of this \$935,900 difference are as follows:

Principal repayment of bonds	\$ 810,000
Issuance of note payable	(1,500,000)
Capital leases	<u>(245,900)</u>
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u><u>\$ (935,900)</u></u>

NOTES TO FINANCIAL STATEMENTS

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

The final element of that reconciliation explains that “Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.” The details of this \$121,122 difference are as follows:

Compensated absences	\$ (23,478)
Accrued interest	(9,396)
Amortization of deferred charges on refunding	(22,735)
Net pension expense	<u>176,731</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u><u>\$ 121,122</u></u>

NOTE 3. LEGAL COMPLIANCE – BUDGETS

A. Budgets and Budgetary Accounting

The City of Monroe, Georgia employs the following procedures in establishing its annual budget:

1. Prior to January 1, the City Administrator submits to the Mayor and City Council a proposed operating budget for the fiscal year commencing on January 1. The operating budget includes proposed expenditures and the means for financing them.
2. The City Council holds a public hearing on the budget, giving notice thereof at least ten days in advance by publication in the official organ of the City of Monroe, Georgia.
3. The budget is then revised and adopted or amended by the City Council at a subsequent regular meeting in the year to which it applies and within forty-five days following January 1.
4. The adopted budget may be revised during the year only by formal action of the City Council in a regular meeting and no increase shall be made therein without provision also being made for financing same, for anything above the legal level of budgetary control, which is the department level. However, transfers within a department may be made within any fund without council approval. The final budget amounts shown in these financial statements reflect amendments approved by the City Council.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. DEPOSITS AND INVESTMENTS

Total deposits and investments as of December 31, 2017 are summarized as follows:

Amounts as presented on the entity wide statement of net position:

Cash and cash equivalents	\$ 13,891,650
Investments	10,333,511
Restricted cash and cash equivalents	12,373,973
Restricted investments	1,498,132
Total	<u>\$ 38,097,266</u>

Cash deposited with financial institutions	\$ 27,763,755
Investments in the Municipal Competitive Trust	10,333,511
	<u>\$ 38,097,266</u>

At December 31, 2017, the City had the following investments:

Investment	Weighted Average Maturities	Balance
Municipal Competitive Trust - Short-term	35 days	\$ 4,688,304
Municipal Competitive Trust - Intermediate	285 days	1,249,174
Municipal Competitive Trust - Intermediate Extended Maturity	5.15 years	4,396,033
Certificate of deposit	12 months	<u>1,498,132</u>
Total		<u>\$ 11,831,643</u>

Credit risk. State statutes authorize the City to invest in U.S. Government obligations; U.S. Government agency (or other corporation of the U.S. Government) obligations; obligations fully insured or guaranteed by the U.S. Government or a U.S. Government agency; obligations of the State of Georgia or other states; obligations of other counties, municipal corporations, and political subdivisions of the State of Georgia, negotiable certificates of deposit issued by any bank or trust company organized under the laws of any state of the United States of America; prime bankers' acceptances; repurchase agreements; and pooled investment programs sponsored by the State of Georgia for the investment of local government funds. The City's investments in the Municipal Competitive Trust were not rated.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. DEPOSITS AND INVESTMENTS (CONTINUED)

Fair Value Measurements: The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The City's only investments that are required to be disclosed in the fair value hierarchy are its holdings in the Municipal Competitive Trust which are considered to be Level 2 investments.

The City's certificate of deposit is a nonparticipating interest-earning investment contract and, accordingly, is recorded at cost.

Interest rate risk: The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial credit risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes and City policy require all deposits and investments (other than federal or state government instruments) to be collateralized 110% by depository insurance, obligations of the U.S. Government, or bonds of public authorities, counties, or municipalities. As of December 31, 2017, the City did not have any deposits which were uninsured or under collateralized, as defined by state statutes.

NOTES TO FINANCIAL STATEMENTS

NOTE 5. RECEIVABLES

Property taxes are levied on property values assessed as of January 1. The Walton County Tax Commissioner bills and collects the City's property taxes. The taxes are levied by August 1 based on the assessed value of property as listed on the previous January 1 and are due on November 15 of each year.

The billings are considered past due on November 16, at which time the applicable property is subject to lien and penalties and interest are assessed.

Property taxes are recorded as receivables and deferred inflows of resources in the General Fund when assessed and revenues are recognized when available.

Receivables at December 31, 2017, for the City's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Utilities</u>	<u>Solid Waste</u>	<u>Nonmajor Governmental Funds</u>
Receivables:				
Taxes	\$ 281,226	\$ -	\$ -	\$ 3,137

NOTES TO FINANCIAL STATEMENTS

NOTE 7. LONG-TERM DEBT

Long-term liability activity for the year ended December 31, 2017 was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:					
General obligation bonds	\$ 2,513,000	\$ -	\$ (810,000)	\$ 1,703,000	\$ 835,000
Capital leases	-	245,900	-	245,900	79,666
Note payable	-	1,500,000	-	1,500,000	75,000
Compensated absences	643,683	556,812	(533,334)	667,161	552,787
Net pension liability	4,448,469	1,213,489	(1,965,699)	3,696,259	-
Governmental activity Long-term liabilities	<u>\$ 7,605,152</u>	<u>\$ 3,516,201</u>	<u>\$ (3,309,033)</u>	<u>\$ 7,812,320</u>	<u>\$ 1,542,453</u>
Business-type activities:					
Revenue bonds	\$ 16,770,000	\$ -	\$ (1,960,000)	\$ 14,810,000	\$ 1,800,000
Note payable	1,643,516	-	(106,389)	1,537,127	106,922
Compensated absences	378,490	592,584	(562,660)	408,414	408,414
Net pension liability	4,610,226	1,314,614	(1,936,806)	3,988,034	-
Business-type activity Long-term liabilities	<u>\$ 23,402,232</u>	<u>\$ 1,907,198</u>	<u>\$ (4,565,855)</u>	<u>\$ 20,743,575</u>	<u>\$ 2,315,336</u>

For governmental funds, compensated absences and the net pension liability are liquidated by the General Fund. The City estimates the current portion of compensated absences based on historical trends of usage by employees.

General Obligation Bonds. In December 2016, the City issued General Obligation Refunding Bonds (Series 2016) to provide funds to advance refund \$2,450,000 in aggregate principal amount of the City's Series 2006 General Obligation Bonds. These bonds were issued for an original amount of \$2,513,000 bearing interest at 1.60% per annum payable semi-annually on April 1 and October and maturing in 2019.

The debt service to maturity on the general obligation bonds is as follows:

Year Ending December 31,	Series 2016		
	Principal	Interest	Total
2018	\$ 835,000	\$ 27,248	\$ 862,248
2019	868,000	13,888	881,888
Total	<u>\$ 1,703,000</u>	<u>\$ 41,136</u>	<u>\$ 1,744,136</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 7. LONG-TERM DEBT (CONTINUED)

Notes Payable (Governmental activities). In December 2017, the City entered into an agreement with Walton Plaza Shopping Center, LLC in order to finance the purchase of a building. The original amount of the loan was \$1,500,000 bearing interest at 3.00% per annum payable quarterly in equal principal installments until maturity on December 31, 2037.

The City's note payable debt service requirements to maturity are as follows:

Year Ending December 31,	Principal	Interest	Total
2018	\$ 75,000	\$ 44,639	\$ 119,639
2019	75,000	42,483	117,483
2020	75,000	40,314	115,314
2021	75,000	37,920	112,920
2022	75,000	35,639	110,639
2023-2027	375,000	144,064	519,064
2028-2032	375,000	87,045	462,045
2032-2037	375,000	29,927	404,927
Total	<u>\$ 1,500,000</u>	<u>\$ 462,031</u>	<u>\$ 1,962,031</u>

Capital Leases. In April 2017, the City entered into a capital lease agreement in the amount of \$245,900 to finance the acquisition of vehicles. Annual principal and interest payments are required until May 2020 at an interest rate of 2.86%.

The City's total debt service requirements to maturity on its capital leases are as follows:

	Governmental Activities
Year Ending December 31,	
2018	\$ 86,699
2019	86,699
2020	<u>86,699</u>
Total minimum lease payments	260,097
Less amount representing interest	<u>14,197</u>
Present value of future minimum lease payments	<u>\$ 245,900</u>

As of December 31, 2017, the City had \$245,900 of capital assets under capital lease with \$22,241 of accumulated depreciation. Annual amortization of these assets is included in depreciation expense.

NOTES TO FINANCIAL STATEMENTS

NOTE 7. LONG-TERM DEBT (CONTINUED)

Revenue Bonds. In December 2016, the City issued the Combined Utility Revenue Bonds (Series 2016) to provide funds to advance refund \$12,865,000 and \$1,065,000 in aggregate principal amount of the City's Series 2006 and Series 2003 Combined Utility Revenue Bonds, respectively. Additionally, proceeds from the bonds were also used to retire a note payable to the Georgia Environmental Finance Authority with an outstanding balance of \$2,610,111. These bonds were issued for an original amount of \$16,770,000 bearing interest at 2.19% per annum payable semi-annually on June 1 and December 1 and maturing in 2026. The debt service to maturity is as follows:

Year Ending December 31,	Series 2016		
	Principal	Interest	Total
2018	\$ 1,800,000	\$ 314,484	\$ 2,114,484
2019	1,505,000	276,652	1,781,652
2020	1,540,000	243,528	1,783,528
2021	1,570,000	209,638	1,779,638
2022	1,605,000	175,091	1,780,091
2023-2026	6,790,000	338,683	7,128,683
Total	<u>\$ 14,810,000</u>	<u>\$ 1,558,076</u>	<u>\$ 16,368,076</u>

Notes Payable (Business-type activities). The City has incurred debt to the Georgia Environmental Finance Authority (GEFA) to replace 7,000 water meters with new automated meter reading technology, repayment of which commenced in December 2016. The note bears interest at 5.00% and is due in equal monthly installments of \$9,530 until it matures on November 1, 2031. Debt service requirements to maturity on this note payable to GEFA are as follows:

Year Ending December 31,	Principal	Interest	Total
2018	\$ 106,922	\$ 7,441	\$ 114,363
2019	107,458	6,905	114,363
2020	107,996	6,367	114,363
2021	108,537	5,826	114,363
2022	109,081	5,282	114,363
2023-2027	553,661	18,154	571,815
2028-2031	443,472	4,444	447,916
Total	<u>\$ 1,537,127</u>	<u>\$ 54,419</u>	<u>\$ 1,591,546</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 7. LONG-TERM DEBT (CONTINUED)

Notes Payable (Downtown Development Authority). In August 2017, the Downtown Development Authority entered into an agreement in order to finance the purchase of two parcels of land. The original amount of the loan was \$245,000 due in one lump sum payment in August 2018 bearing interest at 4.00% due monthly.

NOTE 8. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of December 31, 2017 is as follows:

Due to/from other funds:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Utilities Fund	\$ 308,176
General Fund	Solid Waste Fund	15,749
Solid Waste Fund	Utilities Fund	289,890
		<u>\$ 613,815</u>

The outstanding balances between funds result mainly from the time lag between the dates that transactions are recorded in the accounting system, and payments between funds are made.

Interfund transfers:

<u>Transfers In</u>	<u>Transfers Out</u>	<u>Amount</u>
General Fund	Utilities Fund	\$ 1,687,924
General Fund	Solid Waste Fund	244,705
General Fund	Nonmajor governmental funds	32,081
		<u>\$ 1,964,710</u>
Solid Waste Fund	Nonmajor governmental funds	<u>\$ 232,689</u>
Nonmajor proprietary funds	Utilities Fund	<u>\$ 184,942</u>
Nonmajor proprietary funds	General Fund	<u>\$ 33,973</u>
Nonmajor governmental funds	General Fund	<u>\$ 842,724</u>

Transfers were used to: (1) use unrestricted revenues collected in the Utilities and Solid Waste Funds to finance various programs accounted for in other funds and (2) to cover revenue shortfalls with unrestricted General Fund revenues.

NOTES TO FINANCIAL STATEMENTS

NOTE 9. PENSION PLAN

Plan Description

The City, as authorized by the City Council, has established a non-contributory defined benefit pension plan (The City of Monroe Retirement Plan) covering all full-time employees. The City's pension plan is administered through the Georgia Municipal Employee Benefit System (GMEBS), an agent multiple-employer pension plan administered by the Georgia Municipal Association. The Plan provides retirement and disability benefits, annual cost of living adjustments, and death benefits to Plan members and beneficiaries. All employees, excluding elected officials, who work thirty hours or more per week, are eligible to participate after one year. Benefits vest after five years of service. A City employee who retires at age 65 with five years of service is entitled to benefits of 2.0% of final average earnings in excess of covered compensation. An employee may elect early retirement at age 55 provided he has a minimum of 25 years total credited service to receive full benefits, otherwise early retirement may be elected after only 10 years of service for reduced benefits. Elected officials are entitled to \$30 for each year of service after reaching normal retirement age.

The City Council, in its role as the Plan sponsor, has the governing authority to establish and amend, from time to time, the benefits provided and the contribution rates of the City and its employees. The Georgia Municipal Association issues a publicly available financial report that includes financial statements and required supplementary information for GMEBS. That report may be obtained at www.gmanet.com or by writing to Georgia Municipal Association, Risk Management and Employee Benefit Services, 201 Pryor Street NW, Atlanta, Georgia, 30303 or by calling (404) 688-0472.

Plan membership. As of July 1, 2017, the date of the most recent actuarial valuation, Plan membership consisted of the following:

Retirees and beneficiaries currently receiving benefits	87
Terminated vested participants not yet receiving benefits	76
Active employees - vested	156
Active employees - nonvested	59
Total	<u>378</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 9. PENSION PLAN (CONTINUED)

Plan Description (Continued)

Contributions. The Plan is subject to minimum funding standards of the Georgia Public Retirement Systems Standards law. The Board of Trustees of GMEBS has adopted a recommended actuarial funding policy for the Plan which meets state minimum requirements and will accumulate sufficient funds to provide the benefits under the plan. The funding policy for the Plan, as adopted by the City Council, is to contribute an amount equal to or greater than the actuarially recommended contribution rate. This rate is based on the estimated amount necessary to finance the costs of benefits earned by Plan members during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of Plan members, as determined by the City Council. For the year ended December 31, 2017, the City's contribution rate was 16.95% of annual payroll and contributions to the Plan totaled \$1,576,845. Currently, Plan members do not contribute although some participants still have contributions remaining in the Plan.

Net Pension Liability of the City

The City's net pension liability was measured as of March 31, 2017. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016 with update procedures performed by the actuary to roll forward to the total pension liability measured as of March 31, 2017.

Actuarial assumptions. The total pension liability in the July 1, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods in the measurement:

Inflation	3.25%
Salary increases	3.75% - 8.75%, including inflation
Investment rate of return	7.75%, net of pension plan investment expense, including inflation

Mortality rates for the July 1, 2016 valuation were based on the RP-2000 Combined Healthy Mortality Table with sex-distinct rates, set forward two years for males and one year for females.

The actuarial assumptions used in the July 1, 2016 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through June 30, 2014.

NOTES TO FINANCIAL STATEMENTS

NOTE 9. PENSION PLAN (CONTINUED)

Net Pension Liability of the City (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of March 31, 2017 are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Domestic equity	45%	6.71%
International equity	20%	7.71
Domestic fixed income	20%	2.11
Global fixed income	5%	3.36
Real estate	10%	5.21
Cash	—%	
Total	100%	

* Rates shown are net of the 3.25% assumed rate of inflation

Discount rate. The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

NOTES TO FINANCIAL STATEMENTS

NOTE 9. PENSION PLAN (CONTINUED)

Net Pension Liability of the City (Continued)

Changes in the Net Pension Liability of the City. The changes in the components of the net pension liability of the City for the year ended December 31, 2017 were as follows:

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances at 12/31/16	\$ 26,482,931	\$ 17,424,236	\$ 9,058,695
Changes for the year:			
Service cost	483,726	-	483,726
Interest	2,005,035	-	2,005,035
Differences between expected and actual experience	(253,518)	-	(253,518)
Contributions—employer	-	1,446,150	(1,446,150)
Net investment income	-	2,202,837	(2,202,837)
Benefit payments, including refunds of employee contributions	(1,223,017)	(1,223,017)	-
Administrative expense	-	(39,342)	39,342
Net changes	1,012,226	2,386,628	(1,374,402)
Balances at 12/31/17	\$ 27,495,157	\$ 19,810,864	\$ 7,684,293

The required schedule of changes in the City's net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the City, calculated using the discount rate of 7.75 percent, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
City's net pension liability	\$ 11,047,478	\$ 7,684,293	\$ 4,863,310

NOTES TO FINANCIAL STATEMENTS

NOTE 9. PENSION PLAN (CONTINUED)

Net Pension Liability of the City (Continued)

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of March 31, 2017 and the current sharing pattern of costs between employer and employee.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2017, the City recognized pension expense of \$1,350,087. At December 31, 2017, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 815,270	\$ 190,140
Changes in assumptions	-	152,684
Net difference between projected and actual earnings on pension plan investments	-	20,975
City contributions subsequent to the measurement date	1,207,634	-
Total	<u>\$ 2,022,904</u>	<u>\$ 363,799</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 9. PENSION PLAN (CONTINUED)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

City contributions subsequent to the measurement date of \$1,207,634 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending December 31:	
2018	\$ 179,484
2019	179,484
2020	261,570
2021	(169,067)
Total	<u>\$ 451,471</u>

NOTE 10. JOINT VENTURE

Under Georgia law, the City, in conjunction with other cities and counties in the 12 county Northeast Georgia area, is a member of the Northeast Georgia Regional Commission (RC). Dues to the RC are assessed at the County level and are, accordingly, paid by Walton County. Membership in the RC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the RC in Georgia. The RC Board membership includes the chief elected official of each county and various municipalities of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of the RC. Separate financial statements may be obtained from the RC's administrative office at 305 Research Drive, Athens, Georgia 30605.

NOTE 11. RELATED ORGANIZATIONS

The City's council is responsible for appointing a majority of the board members of the City of Monroe, Georgia Housing Authority. However, the City has no further accountability for the Authority.

NOTES TO FINANCIAL STATEMENTS

NOTE 12. RISK MANAGEMENT

The City is exposed to various risks of losses related to: torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has joined together with other municipalities in the state as part of the Georgia Municipal Association Group Self-Insurance Workers' Compensation Fund, a public entity risk pool currently operating as a common risk management and insurance program for member local governments.

As part of this risk pool, the City is obligated to pay all contributions and assessments as prescribed by the pool, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issues, all incidents which could result in the funds being required to pay any claim of loss. The City is also to allow the pool's agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defined by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense. Settled claims have not exceeded coverage in the past three years.

The City carries commercial insurance for other risks of losses. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage in the last three years.

The City is self-insured for employee group health insurance. The City maintains specific stop loss coverage in the amount \$50,000 per covered individual for employee group health insurance. A liability for employee group health insurance and workers' compensation claims is recognized in the General Fund when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. The liability includes an estimate for claims that have been incurred but not reported.

NOTES TO FINANCIAL STATEMENTS

NOTE 12. RISK MANAGEMENT (CONTINUED)

Changes in the balances of claims liabilities during the past two years are as follows:

<u>Fiscal Year</u>	<u>Beginning of Year Claims Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claims Paid</u>	<u>End of Year Claims Liability</u>
2017	\$ 379,704	\$ 1,341,746	\$ 1,396,501	\$ 324,949
2016	590,677	1,749,560	1,960,533	379,704

The ending claims liability is expected to be paid during 2018 and, therefore, has been classified as a current liability.

NOTE 13. COMMITMENTS AND CONTINGENCIES

Agreements with the Municipal Electric Authority of Georgia:

The Municipal Electric Authority of Georgia (MEAG) is a public corporation and an instrumentality of the State of Georgia created to supply electricity to local government electric distribution systems. As provided by State law, MEAG establishes rates and charges so as to produce revenues sufficient to cover its costs, including debt service, but it may not operate any of its projects for profit unless any such profits inure to the benefit of the public.

As of December 31, 2017, the City is an electric utility participant in MEAG and obligated to purchase all of its bulk power supply requirements from MEAG for a period not to exceed 50 years. The City has agreed to purchase all of its future power and energy requirements in excess of that received by the City through the Southeastern Power Administration at prices intended to cover the operating costs of the systems and to retire any debt incurred by MEAG. In the event that revenues are insufficient to cover all costs and retire the outstanding debt, each participating City has guaranteed a portion of the unpaid debt based on its individual entitlement shares of the output and services of generating units acquired or constructed by MEAG. In addition, in the event of discontinued service to a participant in default, the City would be obligated to purchase additional power subject to contractual limitations. Payments to MEAG are made monthly based on KWH usage. The total payments under these contracts amounted to \$11,725,314 in 2017.

At December 31, 2017, the outstanding debt of MEAG was approximately \$6.0 billion. The City's guarantee varies by individual projects undertaken by MEAG and as of December 31, 2017 totals approximately \$99.2 million.

NOTES TO FINANCIAL STATEMENTS

NOTE 13. COMMITMENTS AND CONTINGENCIES (CONTINUED)

Agreements with the Municipal Gas Authority of Georgia:

The City has also entered into a contract for wholesale natural gas purchases with the Municipal Gas Authority of Georgia (MGAG) that requires the City to purchase all of its natural gas from MGAG. The gas supply contract with MGAG authorizes MGAG to establish rates and charges so as to produce revenues sufficient to cover its operating costs and retire its bonds issued to acquire long-term gas supplies for sale to its members, including the City. In the event that revenues are insufficient to cover all costs and retire the bonds issued by MGAG, the City is obligated to pay its "obligation share" of the costs of the gas supply and related services MGAG provides to the City, which costs includes amounts equal to principal and interest on MGAG's bonds. These obligations, which extend through the year 2018, are general obligations of the City to which the City's full faith, credit and taxing powers are pledged. The City's obligation to MGAG for gas supply costs are based on MGAG's costs to provide such supply, including bonds issued to purchase long-term rights to bulk supply. Payments to MGAG are made monthly based on actual usage. The total payments under these contracts amounted to \$1,418,193 in 2017.

At December 31, 2017, the outstanding debt of MGAG was approximately \$207.2 million. The City's guarantee varies by individual projects undertaken by MGAG and totals approximately \$2.2 million at December 31, 2017.

Grant Contingencies:

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, management of the City believes such disallowances, if any, will not be significant.

Contractual Commitments:

As of December 31, 2017, the City has contractual commitments on uncompleted contracts of \$3,824,498 primarily for infrastructure improvements to its highways and streets as well as to its utilities system.

Litigation:

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of management and legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the City.

NOTES TO FINANCIAL STATEMENTS

NOTE 14. HOTEL/MOTEL LODGING TAX

The City imposes a 5% hotel/motel tax on lodging facilities within the City. Revenues were \$46,052 for the year ended December 31, 2017. Of this amount, 99%, or \$45,712, was expended for the promotion of tourism.

NOTE 15. TAX ABATEMENTS

For the year ended December 31, 2017, City property tax revenues were reduced by \$116,535 under agreements entered into by the Walton County Development Authority. Under the agreements, taxes on both real property and personal property are reduced based on investments made by the corporation to whom the incentives were offered as long as the corporation meets certain investment targets.

Notes to the Schedule of Contributions and Related Assumptions:

(1) Actuarial Assumptions:

Valuation Date	July 1, 2016
Cost Method	Projected Unit Credit
Actuarial Asset Valuation Method	Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amounts that the value exceeds or is less than the market value at the end of the year. The actuarial value is adjusted, if necessary, to be within 20% of market value.
Assumed Rate of Return on Investments	7.75%
Projected Salary Increases	3.25% plus service based merit increases
Cost-of-living Adjustment	0.00%
Amortization Method	Closed level dollar for unfunded liability
Remaining Amortization Period	Remaining amortization period varies for the bases, with a net effective amortization period of 10 years.

(2) The schedule will present 10 years of information once it is accumulated.

CITY OF MONROE, GEORGIA
NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenues that are restricted or committed to expenditures for specified purposes.

Forfeited Drug Fund – This fund is used to account for the City's share of monies that have been forfeited through the court system that are restricted for law enforcement purposes.

Hotel/Motel Tax Fund – This fund is used to account for hotel/motel taxes collected that are restricted for promotion of trade and tourism in the City.

DEBT SERVICE FUND

Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Debt Service Fund – This fund is used to account for the accumulation of resources for, and payment of, principal and interest on the City's general obligation bonds.

CAPITAL PROJECTS FUNDS

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

GO Bond Fund – This fund is used to account for various improvement and construction projects financed by the City's general obligation bonds.

SPLOST Fund – This fund is used to account for the one percent Special Purpose Local Option Tax (SPLOST) funds collected by Walton County and disbursed to the City. The funds are used for specific capital projects as approved by voter referendum.

Capital Projects Fund – This fund is used to account for the receipts and disbursements of grant money used to fund various capital outlay projects of the City.

(1) The allocation of charges for services to the various functions was changed in 2006 to more accurately reflect the nature of the City's activities.

(2) The City received and expended several large grants in 2006 that had not been received in prior years.

(3) In 2006, the City received fewer grants and contributions related to business-type activities than in prior years.

(4) During 2007, the City eliminated the internal service funds and began accounting for revenue and expenditures in the general fund.

(5) During 2006 several large industries closed resulting in lower utility revenue and expenses.

(6) Economic conditions in 2008 caused decrease in new construction and therefore reducing revenue from lap fees and capital contributions.

(7) In 2009, the City raised water and sewer rates, lost a major wholesale water customer mid-year, sold the Oconee County Gas system factors that would lower revenues but also lower expenses.

(8) The City raised solid waste rates.

(9) 2010 was the first year for its new regional training facility.

(10) The City transferred additional funds to establish a stabilization fund coupled with an increase in expenses caused a decrease in the business type activities net position.

(11) The City eliminated several positions city wide and redesigned health insurance benefits contributing to an increase in net position which is in line with historic trends.

(12) Utility rates were restructured coupled with an increase in telecommunication customer base.

CITY OF MONROE, GEORGIA

GOVERNMENTAL ACTIVITIES TAX REVENUES BY SOURCE LAST TEN YEARS (accrual basis of accounting)

Fiscal Year	Property Tax	Sales Tax	Franchise Tax	Other Tax	Total
2008	\$ 3,058,767	\$ 3,828,681	\$ 197,159 ⁽³⁾	\$ 773,845	\$ 7,858,452

(1) Restricted for General Obligation debt service. Decrease due to refunding of General Obligation Bonds.

(2) Increase in capital projects in the SPLOST fund for street enhancement projects.

(3) The increase in unassigned fund balance of the general fund was due to the advance from solid waste, shown in non spendable prior years being repaid.

(4) The increase in unassigned fund balance of the general fund was due to a change in health insurance benefits.

(5) The increase in restricted fund balance of the nonmajor governmental funds was due to an increase in cash in the SPLOST Fund.

(6) The increase in unassigned fund balance of the general fund was due to a transfer from the Capital Improvement Account in the Enterprise Fund.

(7) The decreasing restricted fund balance in nonmajor governmental funds is due to the completion of projects for which there were no offsetting revenues.

(8) The variances in nonspendable fund balance in the general fund is due to advances to the Solid Waste Fund.

(9) The decrease in unassigned fund balance of the general fund was due to excess health insurance costs for which there were no offsetting revenues.

City of Monroe	4,372,101	100.00%	4,372,101
Total direct and overlapping debt	\$ 49,432,101		<u>\$ 11,108,571</u>

Source: Assessed value data used to estimate applicable percentages provided by the Walton County Tax Assessors and the Georgia Department of Revenue Property Tax Division. Debt outstanding data obtained from Walton County's financial statements.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Monroe, Georgia. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county's taxable assessed value that is within the City's boundaries and dividing it by the county's total taxable assessed value.

N/A - Information not available

Note: Indicators are not available for the General government function.

(1) Increase in permit valuation due to increased project square footage and types of projects performed

(2) Decrease in permit valuation due to permits purchased in 2013 for Hltachi expansion

(3) Increase in permits issued due to physician's building at the hospital and increase in construction

(4) Increase in number of tons due to reporting all recovered materials in 2014, prior years was only curbside recycling

(5) Phone service started in 2009 with first full year in 2010

(6) Decrease in number of customers due to sale of Oconee County gas system to Atlanta Gas Light in 2009

(7) Decrease housing and development for 2008 due to slow-down in economy
